

# Collaborative Learning

---

leads students to become much more directly immersed in the ideas of the class. They learn

- ! to have confidence and skills at entertaining ideas on their own
- ! to raise questions
- ! to stay focused
- ! to respond to others' questions
- ! to build rapport with fellow students
- ! the art of disagreeing with others with respect and courtesy
- ! to recognize and acknowledge the limitations of their own points of view
- ! to listen carefully
- ! to sustain an idea
