

Program for Clinical Laboratory Science Affiliated Institution

Below are the affiliated institutions where students may do their clinical practicum. Please note that institutions accepting students vary from year to year. The process for clinical assignments is generally initiated during the last part of Fall Semester of the Clinical Year. Students are given a form on which to rank clinical site preferences. While consideration is given to each student's preferences, assignments also depend on recommendations from the teaching faculty and the education coordinator of the clinical affiliates. Students are not guaranteed their first choice in clinical assignments. Students will be informed of their clinical site assignments before Christmas vacation.

Note that each student is responsible for providing his/her own transportation to clinical practica. We strongly advise that each student have his/her own car for this purpose.

Site Name	Location
Adventist Health Systems, Midwest Region, Hinsdale Hospital	Hinsdale, Illinois
Eliza Coffee Memorial Hospital	Florence, Alabama
Florida Hospital, East Orlando	Orlando, Florida
Grandview Medical Center	Dayton, Ohio
