

Bachelor of Arts in History | 2016–2017

The BA in History is designed for students who want a general background in US and European history. Our program empowers students for the next phase of life—career and/or graduate studies. A history degree allows graduates to enter a variety of fields as their history concentration, along with required general education courses, provides essential skills of critical thinking and analysis; effective bilingual communication, and historical discovery, inquiry and research.

The Andrews University Department of History & Political Science constitutes a vital component of this distinctive Seventh-day Adventist institution. Serving its major and minors, the department promotes the study of history within the Christian worldview, emphasizing both individual and corporate responsibility for service to humanity.
