

CEU Paper Guidelines

Continuing Education is an important aspect of being a professional Social Worker. It is ideal to receive continuing education from your agency; if that is not possible then look for a conference that is linked to the skills needed for your internship. To meet the requirements for this class, continuing education is a seminar presented in person by someone outside of the social work department; it is NOT a part of another class, a video/film or a seminar presented on-line. After attending the seminar, write a full 2 page paper addressing the following:

1. A summary of the seminar
 - a. The venue where the seminar took place
 - b. Name of the speaker and credentials
 - c. A summary of the seminar content/topics, including any activities
2. Continuing Education Reflections
 - a. Your critique of the event – use your critical thinking skills to analyze the seminar and the content
 - b. How the information learned from this seminar is helping you in your internship or in your long term goals as a social worker

The papers are worth 10 points each. Please be sure to check spelling and grammar. **Students are required to attend 2 CEUs** and each paper must be turned in to receive a grade for the course.
