It is Written Collection

Scope and Content

It Is Written is a television evangelistic ministry sponsored by the Seventh-day Adventist Church. It is one of the longest running such programs on television. Began by George Vandeman in 1955, It Is Written evolved into one of the most popular religious broadcasts in many nations around the world.

This small collection is all that the It Is Written organization would call archives in 1995. At that time the Adventist Heritage Center curator collected archival resources from other Adventist media ministries, namely The Voice of Prophecy and Faith for Today. [See their registers for more information.] According to the It Is Written office, all records are on a retention schedule and are not retained after the specified amount of time. While this seems somewhat improbable, what is in this collection constitutes the It Is Written archives as of 1995. The curator spoke to George Vandeman in 1995 and was told that he does not have personal papers; all he had was left at the office. Any thing of value would appear in his forthcoming biography. [See: *My Dream : Memoirs of a One-of-a-kind Disciple*, published by the Pacific Press in 1995.]

The collection consists almost exclusively of program scripts from 1972 to 1981, with 1980 missing. There are a few minutes and reports.

Arrangement

The scripts are arranged by year and then by production number within the year.

Provenance

The collection comes from the It Is Written organization in California. The transfer occurred in 1995.

Use

All users of this collection will be required to complete the "Application to Use Unpublished Record," and to observe the regulation specified in the "Patron's Agreement" and "Researcher's Code of Conduct." All records in this collection are open and available for research. Citation for this collection:
