### Changing the World

The human population around the globe continues to multiply. And the good news of Jesus Christ continues to change lives for the better, to transform. In the cities, villages, and rural areas of our diverse societies, the good news of the gospel liberates people far beyond our human endeavors.

Seminaries are institutions that prepare people to reach non-Christians with the gospel. Considered carefully, that is a radical distinction from the idea that we exist to prepare people to serve existing congregations. It isn't that focusing on non-Christians ignores the development of existing Christians and churches. Rather, it means that we, all of us who are formed as disciples, live our lives in mission. We are a serving community. That defines our lives, and our churches. In a healthy way, I might add.
