

INSY 562 Detailed Schedule

Spring 1997

(subject to adjustments during quarter)

Last Updated: 1997 Apr 2

Day	Date	Topic Read	Assigned	Due
T	Apr 1	Class begins	Syllabus, projects	
F	4	First class session - 2:00pm with Ray Paden	Syllabus provided and discussed	
M	14			biweekly reports
M	28			biweekly reports
S	May 4	Suggested week for mid-term presentation to client. Use this presentation of the current version of your software to get feedback and clarification from the client, and to re-direct your work if you are not heading in the desired direction.		mid-term presentation to client, printed documents to client, initial software to client
M	12			biweekly reports
M	26			biweekly reports
S	Jun 1	Suggested day for final presentations and submission of all final deliverables. THE DATE AND TIMES FOR THESE FINAL PRESENTATIONS WILL BE MADE BY THE TEACHER AS THE QUARTER PROGRESSES, AND AFTER DISCUSSION WITH THE CLIENT AND THE CLASS MEMBERS. It is possible that another day will ultimately be chosen, but the teacher will alert you to this fact as the date gets closer.		All final deliverables, including final "bi-weekly" report and evaluations.

Assigned:

The details of the final deliverables (as well as those which are required throughout the quarter) are described in the syllabus and will be expounded on throughout the quarter. While these details are provided for your direction, it is expected that you will also use your judgment and experience from prior work and INSY 460, Software Engineering, in determining the actual items you turn in.

Due:

Specific due dates for certain deliverables are listed here and are discussed in class and via e-mail.

NOTE:

Assignments and due dates will be added and updated throughout the quarter.
Please consult this document regularly.

The syllabus provides a general plan for the course. Deviations may be necessary.
