

HE RESTORES MY SOUL **AA**

ANDREWS ACADEMY

“As a Seventh-day Adventist secondary school, Andrews Academy seeks to inspire its students to think deeply, live fully, serve unselfishly, and honor God completely.”

Current & Future Projects

We continue to strive to be the flagship school that Andrews University has envisioned us to be. With that in mind, we aim to provide a balanced co-curricular program in an appealing environment. This year's projects are as follows:

- Replenishing our Worthy Student Fund
- Phase 2 of our Chapel Renovation, which will include new pews, carpet, and the stage
- New digital sign by the road—coming soon!
- New cooling and heating towers

By developing these projects into reality, we can better obtain the ideal environment for learning, as well as create students that will continue to excel in all that they do. As we work toward these goals, we keep in mind our vision statement above.

Finished Projects

With your help, we have recently completed the following projects:

- New gym floor (due to flooding last winter)
- Created feature back wall in Chapel (nearly complete) and added a door that connects to C Wing
- Added additional security cameras
- New, more secure, exit doors
- Classroom heaters and hallway ceiling tiles continue to be replaced
- Wiring/connections to TVs in the gym, Commons, office, and library for overflow seating for programs, as well as for announcements, pictures, weather report, etc.

Test Scores

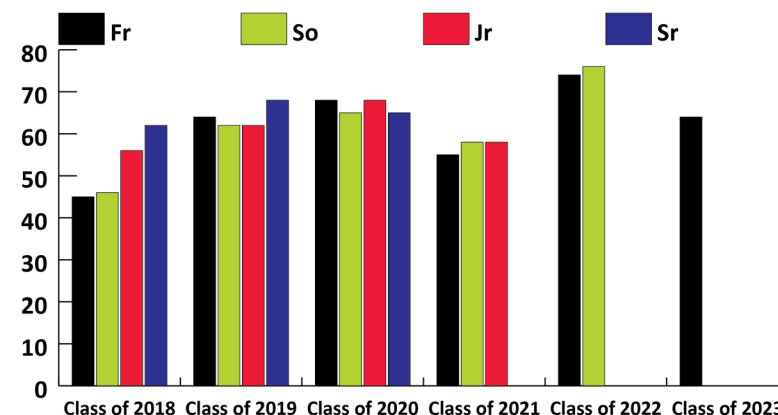

Each year Andrews Academy helps students evaluate their progress using standardized tests. This process allows a student to see which areas they excel in and which areas may need more attention. For students who took the ACTs, the following data shows how we compare against school, state, and national results for 2015-16 and 2016-17. (Values shown are the Mean Score Percentile.) MI & AA students now focus more on SATs.

Updated Chapel Wall

Dear Friends,

God has been good to Andrews Academy. We have been blessed to see our enrollment numbers typically growing from year to year (this year we are only slightly down from last year, even with a smaller 8th grade graduating class). We are committed to providing an excellent curriculum from top-notch educators! We continue to partner with Andrews University, not only to provide free tuition for dual enrollment, but to offer new “introductory” courses in the areas of nursing and computer programming.

We thank you for your partnership with Andrews Academy and for making it possible for many fami-

lies to attend AA. We look forward to continuing our Andrews legacy this 2019-20 school year. And with your help, we can do it!

Please keep the students, faculty/staff, and each component of our school in your prayers so that each will have a blessed year at AA, and that each will have a deeper relationship with Jesus as a result of our time here at Andrews Academy.
