The study of history examines humanity through time. It contributes to both social and individual identity and expands awareness beyond the confines of time and place. The Department of History and Political Science promotes such study within the framework of a Christian world view. In addition to the quest for truth, this perspective emphasizes both individual and corporate responsibility for service to humanity.

The department's General Education courses and majors and minors provide a basic component of liberal arts education.

Undergraduate Programs

BA: History—38

HIST117, 118, 204, 205, 404, 480, 488, 490, two upper division courses in American History and two upper division courses in European or other non-U.S. history.

Electives: The following political science courses may be applied to the history major: PLSC104, 470.

The Major Field Achievement Test in history must be taken by all majors during their senior year. *Students seeking secondary certification must complete HIST459 and PLSC104, which count towards the major, as well as GEOG110 and ECON225.*

BA or BS: Political Science—45

Interdisciplinary Major

PLSC104, BHSC230, and a minimum of 21 additional credits in political science, plus 18 credits in another discipline approved by the student's academic adviser. In special cases, the 18 credits outside of political science may be chosen from more than one discipline when approved by both the adviser and the chair of the Department of History and Political Science. HIST465 may be applied to the political science portion of the major. Students are strongly encouraged to complete an internship in government or the private sector as part of their undergraduate study.

The Major Field Achievement Test in political science must be taken by all majors in their senior year.

BS: Social Studies—50

HIST117, 118, 204, 205, 404, 490; one upper-division United States and one upper-division European or other non-U.S. history course; PLSC104, 307; ECON225, 226; GEOG110, 260; SOC1430; ANTH200.

Electives: Remaining credits chosen from history, political science, geography, and economics. *Students seeking secondary certification must include HIST459.*

The major Field Achievement Test in History must be taken by all majors in their senior year.

Students desiring secondary certification must also complete HIST459.

Elementary Education Minor in Social Studies—24

HIST204, 205, 404; PLSC104; GEOG110; ECON225; and six credits from two of the following areas: political science, geography, economics.

Pre-Professional Curricula in Public History

Public or applied history refers to careers in history-related fields other than teaching. The major areas include museum management, archival management, and historic preservation, as well as the production of historical programs for the media. A master's degree in a public or applied history program or certification upon

completion of certain graduate courses is needed prior to employment.

The Department of History and Political Science recommends curricula which combine a major in history with a second major or minor and electives, providing an advantageous undergraduate basis for a public history career. Curriculum recommendations are available from the department chair.

Graduate Programs

The Department of History and Political Science offers the Master of Arts: History and in cooperation with the School of Education, offers the Master of Arts in Teaching (MAT) degree.

MA: History—36

In addition to the general requirements for graduate degree programs listed in the *Graduate Admissions* section of this bulletin, the following departmental regulations should be noted.

Admission Requirements. Applicants must have completed a bachelor's degree with a minimum of 30 undergraduate credits in approved history courses.

Degree Requirements

- The completion of 36 credits in graduate history courses.
- Advanced-level courses completed in residence (including a 500-level seminar or 3 credits of HIST 590 as determined by the adviser, and two additional courses) in each of three fields of history.
- A minimum of two fields chosen from United States to 1876 United States since 1850 Modern Europe, 1500-1815 Modern Europe since 1789
- One additional field may be from Middle East Ancient or Classical Christian Church, beginnings through the Reformation Christian Church, Reformation to present
- After the completion of a minimum of 27 credits, passing a comprehensive examination in each of three areas chosen. (Examination administered by faculty committee appointed by the department chair at the beginning of third quarter in residence.)
- Reading proficiency in an approved foreign language (substantiated by examination or from credits through the intermediate college level earned within 6 previous years with grades of B or better). Can be waived by chair in lieu of 6 approved, additional history credits.
- Two project papers

MAT in History

The degree prepares students for teaching history and government in secondary schools and is offered through the School of Education. Candidates must have passed basic undergraduate survey courses in World Civilizations and United States History. Graduate courses should be elected to include a variety of period, topical, and geographic-area courses. A minimum of 6 credits elected in these areas must be at the 500 level. At

least 2 credits in HIST590 are required. HIST459 is required but does not count toward the minimum 12 credits of history.

Candidates select their courses in consultation with the chair of the department or an adviser designated by the chair. See the School of Education section of this bulletin on p. 172 for further information regarding teacher certification and the MAT degree program.

INTER-DISCIPLINARY STUDIES

Academic Programs	Credits
BS: Environmental Sciences	
MA: Interdisciplinary Studies Communication	37-45
MS: Interdisciplinary Studies Mathematics and Physical Sciences	32-40

An increasing number of careers demand that students have integrated, advanced skills and expertise in more than one field of study. Careers in education, leadership, management, and religion require a holistic grasp on philosophical, ethical, and pedagogical interrelationships. The interdisciplinary programs provide a framework where faculty and students can engage in scholarly pursuits which require such interrelationships.

The discipline of environmental science deals with the relationships between humans and natural systems. This degree develops an understanding of the relationship between humans and natural systems, expertise in problem solving and communication skills, environmental management skills, testing and planning abilities, and a strong foundation for advanced study in various professional and basic research fields. It promotes "hands on" as well as basic and theoretical training.

Requirements in seven areas:

Physical/Natural Sciences and Math: BIOL165, 166, 208, 348; CHEM131, 132, 231, 232, 241, 242, 340; IDSC401, 402; MATH165, 182.

Religion: RELT100, RELB210, RELT348, RELP400.

Language/Communication: ENGL115, 215, 306; COMM104.

Arts/Humanities: HIST117, 118; IDSC211, 340; PLSC100, 425.

Computer Tools: INFS110 (or pass of competency test)

Social Sciences: ANTH124, ARTH220 or ENGL255; BHSC100, 235; SOCI470; ECON225 or 226.

PE/Wellness: HLED130; Two activity courses.

An internship is required, lasting a minimum of 3 months. Students are encouraged to select other electives with the help of their adviser according to their career interests.

Graduate Programs

The College of Arts and Sciences (in cooperation with other schools) offers graduate programs leading to the Master of Arts: Interdisciplinary Studies (Communication), and Master of Science: Interdisciplinary Studies (Mathematics and Physical Sciences).

ENROLLMENT AND GRADUATION PROCEDURES FOR MASTER OF ARTS/SCIENCE IN INTERDISCIPLINARY STUDIES

Students planning to enroll in the Master of Arts or Master of Science: Interdisciplinary Studies program should note the following procedures:

1. At the time of application for admission, Master of Arts: Interdisciplinary Studies (Communication) students must submit a statement of objectives for seeking the degree and a proposal as to how disciplines will be integrated to meet the student's goals. Master of Science (Mathematics and Physical Science) students must specify the two areas of emphasis proposed.
2. A supervising committee (chair and two graduate faculty members representing appropriate disciplines) is appointed by the area coordinator in consultation with the Graduate Program Coordinator to advise the student in developing his/her program. This committee also supervises the student's program and guides his/her research.
3. The committee and the student develop a plan of study. Deficiencies, prerequisites, and research and/or language tools are considered as well as transfer credits, residency, comprehensives, and a culminating project. All course work and procedures are to be consistent with the student's defined and approved purpose and the general requirements for the MA or MS as defined in this bulletin.
4. The plan of study must be submitted to the Graduate Program Coordinator via the area coordinator before registration. Any changes in the plan of study must be approved by the supervising committee, the area coordinator, and the Graduate Program Coordinator.
5. A project must be submitted to a student's committee at least two months prior to graduation. The area coordinator recommends final project approval after the consent of the committee has been obtained.
6. Advancement to degree candidacy is recommended by the area coordinator by means of the usual forms and according to the requirements outlined on p. 38.
7. Graduation Procedures and Degree Conferral. See p. 19 for further details.
