Programs

AUTOMOTIVE TECHNOLOGY

Two options are available in the automotive field—auto body and auto mechanics. Auto body provides the training needed to repair auto damage incurred in accidents and to restore vehicles to their original appearance and correct body alignment. Auto mechanics provides the training needed to maintain and repair automobile engines and systems.

BT: Automotive Technology  
Major requirements—40  
AUTO135, 140, 150, 330, 380, 425; TCED140, 250, 254, 456, plus 7 credits of electives.  
Emphasis in Auto Body—20  
AUTO120, 130, 345, 355, plus 4 credits of electives chosen from auto technology.

or

Emphasis in Auto Mechanics—20  
AUTO325, 340, 350, 425, plus 5 credits of electives chosen from auto technology.

AT: Automotive Technology  
Major requirements—20  
AUTO135, 140, 150; INDT315; TCED456, plus 3 credits of electives.  
Emphasis in Auto Body—20  
AUTO120, 130, 345, plus 8 credits of electives chosen from AUTO355, 380; TCED140 and other auto technology courses.

or

Emphasis in Auto Mechanics—20  
AUTO325, 330, 340, plus 9 credits of electives chosen from AUTO350, 380 and other auto technology courses.

All students in these two program options must have written two ASE exams by the end of their first year. By the end of the second year, they must have passed a minimum of five ASE tests in their respective option.

DIGITAL MULTIMEDIA TECHNOLOGY

Digital Multimedia is a very exciting field which utilizes the computer as its main work tool in developing projects needed by clients. Students learn skills such as digital image manipulation and enhancement, 3-D modeling and animation, digital sound mixing and enhancement, digital video editing, interactive webpage design, interactive multimedia, and CD authoring.

BT: Digital Multimedia Technology  
Major requirements—55  
DGME130, 175, 185, 215, 216, 225, 250, 335, 340, 360, 370; PHTO130; TCED495 plus 12 credits of electives chosen from ART214; DGME305, 345; PHTO115, 300, 365; TCED275.  
Cognate requirements—11  
ART104, 207; COMM320; CPTR125.

Students are accepted into the Digital Multimedia program on a provisional basis until they demonstrate their skills and abilities. By the end of the students’ sophomore year they need to have completed ART104, 207; DGME130, 175, 215, 225; and PHTO130

SEQUENCE OF TWO-YEAR AND FOUR-YEAR PROGRAMS

The Department of Imaging and Applied Technology plans programs using the “ladder concept,” allowing a student to complete as much education as desired before entering the work force. Two- and four-year programs are available. Students completing the two-year program may go directly into a four-year program in the same area without the loss of credits. The ladder concept allows students to reach the educational goal that best fits their specific needs.

ANCILLARY OPERATIONS

Screen Graphics and LithoTech are ancillary operations of the Department of Imaging and Applied Technology providing students with experiences unavailable elsewhere on campus.

Students are accepted into the Digital Multimedia program on a provisional basis until they demonstrate their skills and abilities. By the end of the students' sophomore year they need to have completed ART104, 207; DGME130, 175, 215, 225; and PHTO130
with a cumulative GPA of at least 3.00. They must also submit a portfolio of their work to the department along with a formal application to the Digital Multimedia program. Applications and portfolios are reviewed by the department during the month of May and the applicant is notified no later than June 30 of acceptance into the program. Students must have a cumulative GPA of 2.75 in this major for graduation.

**GRAPHIC IMAGING TECHNOLOGY**

Revolutionized by the introduction of computer technology into the industry, the term "graphic imaging" is no longer limited to the field of printing. The industry now emphasizes online publishing and interactive multimedia. Students work extensively with computer applications. Two options are available.

**Electronic Publishing** helps students develop skills in the use of computer applications to produce materials for the printed page as well as for Web and CD-ROM publishing and interactive media.

**Web Development.** In today's economy almost everyone has a webpage to help advertise or market a product. This is one of the rapidly growing areas of the job market. Students taking this emphasis will have the needed background to find good paying jobs.

**BT: Graphic Imaging Technology**

Major requirements—30
DGME130, 175, 215, 225, 250, 335, 350; PHTO365; TCED495

Emphasis in Electronic Publishing—28
DGME185, 305; GRPH125, 145; PHTO115; plus 10 credits of electives chosen in consultation with advisor.

Cognate requirements—8
ART104, 207; JOUR140

Emphasis in Web Development—28
CPTR125, 151, 152; DGME340, 385; plus 8 credits of electives chosen from CPTR416; DGME216, 345; PHTO115, 130, 300.

Cognate requirements—5-6
Chosen from ART104, 207, 214, 310.

**AT: Graphic Imaging Technology**

Major requirements—40
DGME130, 175, 185, 225; GRPH125; INDT315 plus 18 credits of electives chosen from DGME305; GRPH145 and others in consultation with advisor.

Cognate requirement—2
ART207

**PHOTOGRAPHIC IMAGING**

Photographic imaging fosters creativity in the production of visual images. The subject of these images and the method used to create them vary.

Commercial imaging develops skills required by the commercial industry through the use of studio work and on-location shooting in medium- and large-format photography.

Digital imaging utilizes computer technology to create, enhance, or modify photographic images.

Photography encompasses elements of digital and commercial imaging, and adds individual creativity and photojournalism.

**BS: Photographic Imaging**

Major requirements—46
DGME130, 175; PHTO115, 200, 220, 285, 300, 365, 385, 400; TCED495; plus 5 credits of electives chosen from DGME216, 345; GTEC395; PHTO130, 210, 365, 410, 425.

Cognate requirements—18-19
ART104, 207, 214, 414; BSAD210; COMM320 or 456.

By the end of the sophomore year (min. 16 credits in PHTO courses) students are required to pass the Portfolio Review. The Review is a time where the faculty evaluates the students' progress through the program by examining their technical and creative abilities. The students will present their portfolios to the faculty, discuss goals, and intelligently defend their work.

**Minors**

Automotive Technology—20
AUTO120, 130, 345, or 135, 140, 150; TCED140 plus 6-7 credits of electives chosen from auto technology.

Digital Multimedia—20
DGME130, 175; plus 13 credits of electives chosen from DGME courses in consultation with advisor and approved by the department.

Imaging Technology—22
ART207; DGME130, 175, 185; GRPH145 plus 3 credits of electives chosen from DGME, GRPH, and PHTO.

Photography—20
DGME175; PHTO115, 200, 220, 285.

Web Development—21
CPTR125; DGME130, 175, 250, 350 plus one cognate chosen from ART207; COMM454; EDTE476.

**Courses**

See inside front cover for symbol code.

**AUTOMOTIVE TECHNOLOGY**

AUTO104 $ (2)
Personal Auto Care
Stresses the need for proper procedures in routine automobile maintenance. Helps the automobile owner become a wise consumer with emphasis on how to do simple tune-up, maintenance, and minor repairs. Not applicable to a major or minor. Fall

AUTO105 $ (1)
Automotive Consumerism
Consumer knowledge for the everyday challenges and decisions involved in automobile ownership. Topics include purchasing a new vehicle, how to choose a good repair facility, buying auto insurance, leasing, financing your purchase as well as how to deal with salespeople. When to sell or trade a vehicle along with how to protect your investment is also covered. Not applicable to a major or minor. Fall

AUTO115 $ (2)
General Auto Body Repair
Basic auto body repair procedures are emphasized using individual
projects. Helps the individual be a better consumer. Not applicable to a major or minor. *Spring*

**AUTO120**  
**Auto Body Repair I**  
Theory and skill development for metal control in auto body sheet metal repair procedures. Welding, hand tool and power tool skills are developed on mock-ups and selected damage on automobiles. Component alignment and minor panel sectioning will be covered on both unitized body and conventional frame style vehicles. *Fall*

**AUTO130**  
**Auto Body Repair II**  
Fundamentals of spray equipment, its usage and care. Emphasis in finishing materials, procedures and techniques for spot finishing and complete paint jobs. Course covers the preparation of substrata and final finishing using automotive urethane finishes. Study will also be made of body component systems and their diagnosis and repair. Prerequisite: AUTO120 or instructor’s permission. *Spring*

**AUTO135**  
**Engine Performance I**  
A course dealing with general engine diagnosis emphasizing ignition, fuel, air intake, emission and computer controls. *Fall*

**AUTO140**  
**Brakes, Suspension and Steering I**  
A study of the hydraulic brake system including drum and disc diagnosis and repair. Steering and suspension along with basic wheel alignment will be covered. *Spring*

**AUTO150**  
**Automotive Electrical Systems I**  
A course dealing with general electrical diagnosis and service procedures which covers: starting, charging, lighting, accessories and gauges. *Spring*

**AUTO325**  
**Engine Repair**  
Includes general engine diagnosis and repair covering cylinder heads, block repair, lubrication and exhaust systems. *Fall*

**AUTO330**  
**Engine Performance II**  
An in-depth study of engine diagnosis as it relates to ignition, fuel air induction, emission and computer controls. Use of diagnostic tools will be emphasized. Prerequisite: AUTO135. *Spring*

**AUTO340**  
**Brakes, Suspension and Steering II**  
An advanced study of the hydraulic braking system including ABS diagnosis and repair. In-depth investigation of alignment, steering and suspension will be covered. Prerequisite: AUTO140. *Spring*

**AUTO345**  
**Auto Body Repair III**  
Frame and body alignment theory and techniques with emphasis in the use of frame and body measuring devices, heavy duty floor or rack-pulling equipment. Skill in the repair and replacement of sections and complete structural panels will also be developed. Prerequisite: AUTO130. *Fall*

**AUTO350**  
**Automotive Electrical Systems II**  
In-depth study of the starting, charging, lighting systems along with accessories and gauges. Emphasis in computer application and control of the automobile operation. Prerequisite: AUTO150. *Spring*

**AUTO355**  
**Auto Body Repair IV**  
Study in advanced finishing systems and spray gun technique for three stage color systems and custom finishes including stripping, tapping, airbrush, and metal flake. Study and practice will also be made of estimating the cost of repairs of collision damage. Prerequisite: AUTO345 or by permission of instructor. *Spring*

**AUTO380**  
**Heating and Air Conditioning**  
A study of refrigeration theory and repair. Refrigerant recovery and recycling methods, heating and cooling principles are stressed. *Spring*

**AUTO425**  
**Automotive Services**  
Designed to provide experience in automotive diagnosis, estimating, and repair. Students will work on assigned projects. Prerequisites: 20 credits of auto courses with a 3.00 GPA and listed in at least one specialty area by ASE. Repeatable to 8 credits. *Fall, Spring*

**CONSTRUCTION**

**CNST105**  
**Residential Construction**  
Emphasis in house-framing. The use of the steel square as it relates to rafter and stairway construction. Reading of prints, safe and proper use of hand and power tools will be covered. Energy efficient houses and other modern methods of construction are introduced. *Spring*

**CNST115**  
**Masonry Construction**  
Emphasizes the proper use of the trowel, laying block and brick to the line and building of corner leads. Vocabulary, theory, safety, and practical applications are stressed. *Fall*

**CNST120**  
**Electrical Construction**  
Includes code requirements, design and layout of electrical circuits, wiring methods, and commercial applications. *Fall*

**CNST135**  
**Plumbing Construction**  
Includes design and layout of waste and water systems, rough-in methods, and trim. Print reading will be covered. *Spring*

**DIGITAL MULTIMEDIA TECHNOLOGY**

**DGME130**  
**Introduction to Digital Graphics**  
An introductory survey of professional digital and conventional graphics covering understanding the Macintosh computer, electronic publishing, basic printing principles, sound digitizing, vector and raster graphics, interactive multimedia, image acquisition and output, web publishing and e-mail. *Fall, Spring*

**DGME175**  
**Digital Imaging**  
A study of raster graphic fundamentals as they apply to scanned
images. Emphasis on image manipulation, restoration, tonal enhancement, on-screen graphics and image acquisition and output. Visual and procedural problems relating to digital imaging will be covered, along with techniques of aesthetic and efficient image enhancement. Prerequisite: DGME130 with a C or better. ART207; PHTO115 recommended. Fall, Spring

DGME185 $ (4)
Desktop Publishing I
Students learn to produce publications on desktop computers, including: brochures, magazine covers, corporate stationery, book covers, etc. Course topics incorporate: effective page layout, basic color theory, monitor calibration, gray balance, tone compression, GCR and UCR, digital proofing, image acquisition, and final output. Applications of color theories and color separation are stressed. Prerequisite: DGME175. Fall

DGME215 $ (2)
Introduction to Digital Sound
An introduction to digital sound acquisition, manipulation and storage techniques. Students learn fundamentals of sound terminology, audio digitizing and nonlinear editing. Students will then apply this knowledge to various video, interactive and web applications. Prerequisite: DGME130. Fall, Spring

DGME216 $ (3)
Digital Video Editing I
An introductory course covering the basic concepts, function and theory of nonlinear editing from conceptualization to output. Emphasis on video capture, digitizing, video terminology, media management, compositing and applications for interactive and web media. Prerequisite: DGME175. PHTO115 recommended.

DGME225 $ (4)
Digital Vector Graphics
A study of digital vector graphic imaging emphasizing graphic production for print, digital multimedia, and web publishing. Prerequisite: DGME130 or equivalent. Fall

DGME250 $ (4)
Web Publishing I
Exploration of the design, storage, retrieval, and delivery of electronic information using text and graphic images. Emphasis on publishing via the Web, kiosks, HTML authoring, and digital formats. Effective organization and planning of data for delivery, efficient design, and ethics are examined. Prerequisite: DGME130 or INSY104. Fall, Spring

DGME305 $ (4)
Desktop Publishing II
An advanced study of desktop publishing principles including: grid based layout, typographic applications, layout techniques for printing and web publications, effective electronic file preparation, prelighting, and tips for consistent color reproduction. Prerequisite: DGME185. Spring

DGME335 $ (4)
Web Animation
A course of study designed to develop the skills necessary for producing effective animation for the Web. Prerequisites: ART104; DGME130 or equivalent. Fall, Spring

DGME340 $ (4)
Interactive Multimedia I
A survey of leading multimedia techniques using state-of-the-art software and covering principles of effective digital multimedia production, interactive new media concepts, basic scripting, animation, digital imaging, and sound manipulation. Students produce digital interactive presentations, kiosks, and web-ready programs. Prerequisites: DGME175, 215, 216. Fall

DGME345 $ (3)
Digital Video Editing II
An emphasis on nonlinear video editing, implementing modern video editing suites. Students learn video composition, the use of filters, transitions, alpha channels, video formats and their application, video recording/capturing, broadcasting techniques, and the advantages and limitations of this medium. Prerequisites: DGME215, 216. Spring

DGME350 $ (4)
Web Publishing II
Advanced study of current web development technologies with emphasis in Java scripting, animation, site quality and efficiency. The class will also stress meeting customer needs and new methods of web development. Prerequisite: DGME250. Fall, Spring

DGME360 $ (4)
3-D Modeling
A study of basic 3-D modeling principles and techniques. Students learn 3-D modeling terminology, points and polygonal manipulation, model construction, and surfacing. Students also implement geometric manipulation tools such as: lathe, extrude, boolean effects, metamurbs, text manipulation and more. Prerequisites: ART104; DGME175, 225. Fall

DGME370 $ (4)
3-D Animation
Basic 3-dimensional animation and rendering. Students learn to work with splines, keygames, and to manipulate object geometry on the computer as they animate and texture 3-D objects. Basic lighting, compositing and other effects also implemented. Prerequisites: DGME215, 216, 360. Spring

DGME385 $ (4)
Interactive Multimedia II
An intermediate multimedia production course using leading industry software. 2-D and 3-D image manipulation and animation are implemented. Topics include interactive new media presentations, television commercials, digital video, kiosks, animation for web pages, and other computer-based presentations. Moderate Lingo scripting is also covered. Prerequisite: DGME340. Spring

GRAPHIC IMAGING TECHNOLOGY

GRPH125 $ (2)
Principles of Printing
A study of the graphic arts industry including prepress concepts, color science, digital printing, digital image capture and color management. Also more traditional methods in design, layout, text and page composition, film assembly, imposition, and many different printing techniques to produce images on a substrate. Some business aspects and career possibilities will be explored. Open to all students. Fall

GRPH145 $ (4)
Screen Graphics I
Basic screen printing principles and practices with emphasis on stencils, fabric selection, frames, inks, squeegees, screen reclama-
tion, photography, digital and conventional artwork to produce
screened projects. The sign industry, large format digital printing,
UV and curved printing sequences will be explored. Open to all
students. **Fall**

GRPH345 $ (4)
**Screen Graphics II**
In-depth study on making process, simulated process, index and
spot separations for screen printing. Other decorating methods
will be explored such as transfers, foil, athletic numbering, glow
in the dark, puff and UV. Non-textile applications will also be
explored, decorating substrates such as plastics (binders, CDs,
etc.) and glass (simulated etch, etc.) and many other substrates.
Prerequisite: GRPH145. **Spring**

PHOTOGRAPHY

PHTO115 $ (4)
**Introduction to Photography**
Basic introduction to the principles of the camera and darkroom
techniques with consideration toward composition, psychological,
and aesthetic attitudes in black-and-white photography. **Fall, Spring**

PHTO130 $ (2)
**Fundamentals of Video**
An introductory course in videography emphasizing the terminol-
yogy, aesthetics, and methods of video production. PHTO115
recommended. **Fall**

PHTO200 $ (4)
**Advanced Photography I**
Develops the art of photographic perception and use of photography
as a visual language. Emphasizes craftsmanship and awareness of
tools available, as well as aesthetics, and the art of seeing cre-
atively. Developing skills beyond introductory camera usage is
emphasized. Prerequisite: PHTO115. **Fall, Spring**

PHTO210 (3)
**History of Photography**
Historical study of significant contributors in the development of
photography and their influence on art and society. **Fall, Spring**

PHTO220 (4)
**Color Photography I**
Designed to acquaint students with color materials, their handling
and exposure. Aesthetic and communicative aspects of color pho-
tography stressed in producing visually effective color transparen-
cies. Prerequisites: PHTO115 or by permission of instructor. **Fall**

PHTO285 $ (4)
**Studio**
Study of lighting techniques in standard-equipped studio,
emphasizing portraiture, commercial illustration, and experimental
techniques in both black-and-white color mediums. Prerequisite:
PHTO200. **Spring**

PHTO300 (3)
**Media Ethics**
Understanding the influence and role of the media in who we are
and what we value. Provides a language and a forum for
discussion on the media and how they influence our lives. **Spring**

PHTO320 (4)
**Color Photography II**
An image-oriented course, drawing on the student’s background in
the use of color comprehension, photographic technical and
aesthetic understanding, and working knowledge of emulsion and
digital photography. Information in this class is for the sole
purpose of comprehensive color image. Prerequisites: DGME175;
PHTO220. **Fall**

PHTO365 $ (4)
**Advanced Digital Imaging**
In-depth manipulation using leading industry software, emphasizing
high quality image acquisition and output. Students learn to
produce duotones, create raster graphic collages, perform critical
image enhancement, create custom palettes, and alpha channels
for image compositing. Repeatable to 8 credits. Prerequisites:
ART207; DGME175 (with a B- or better); PHTO115. **Fall, Spring**

PHTO385 $ (4)
**Advanced Studio**
An individual approach to an advanced level of studio photogra-
phy. The student will be able to choose a concentration in the
following areas: Portraiture, People/Fashion, Still-Life,
Advertising/Illustration, and Location Photography. This course is
designed specifically to learn visual concepts and solve visual
problems of the commercial photo industry. Repeatable to 12
credits. Prerequisite: PHTO285. **Fall, Spring**

PHTO390 (1-4)
**Independent Study in Photography**
Further study of photography under direction of instructor. May
be repeated. Prerequisites: Prerequisites: PHTO115 or equivalent
and approval of the instructor. **Fall, Spring**

PHTO400 $ (4)
**Digital Photographic Printing**
Study in color printing using traditional emulsion based processes
and digital color output. Prerequisites: PHTO220, 365. **Fall**

PHTO410 $ (4)
**Advanced Photography II**
A course designed for the advanced photographer to investigate
personal potential in visual exploration, experimentation, and
technical excellence. Discussion involves expanding personal
vision and exploring new techniques to achieve goals. Repeatable
to 8 credits. Prerequisite: PHTO285. **Spring**

PHTO425 (4)
**Travel Photography**
Designed to be done in conjunction with on-location photography,
and provides a background in the specific needs related to travel.
Photographing people and their land in foreign environments is
emphasized. Unique materials and equipment are discussed as
they relate to travel photography. Repeatable to 8 credits.
Prerequisite: PHTO115.

TECHNOLOGY EDUCATION

TCED140 $ (2)
**Welding Technology**
Oxyacetylene and electric welding processes including oxyacety-
lene welding, cutting, and brazing; basic shielded metal arc
welding and basic gas metal arc welding. A limited amount of
out-of-position welding will be stressed. **Fall**

TCED179 $ (2)
**Woodturning**
Instruction and practice on the wood lathe covering safety and the
basic operations used in spindle and face-plate turnings. Projects are of a useful and artistic nature. Spring

TCED180 $ (3-4)
Fundamentals of Woodworking
Emphasis in design, wood identification, and the construction of appropriate projects from drawings. Safety and proper use of wood-working machines and common hand tools stressed. Spring

TCED194/494 (1-4)
Project Course
Development of a skill in a given area by working independently under the supervision of the instructor. Repeatable to 12 credits. Prerequisite: Permission of instructor. Fall, Spring

TCED250 $ (3-4)
Machine Shop
Basic set-up and operation of lathes, milling machines, grinders, drilling machines, and shapers; safety, machine maintenance, off-hand grinding, drill sharpening, layout, and inspection emphasized. Spring

TCED254 (3)
Technical Space Utilization
Acquaints students with the planning and organization of technical facilities. Consideration given to space requirements, building structure, material flow, equipment needs, site location, and environment control of such facilities. Spring

TCED350 (2)
Teaching of Technology Education
Teaching methods and strategies applicable to the teaching of technology education at the secondary level. The developing of specific learning experiences and learning through problem-solving is covered. Prerequisite: Permission of instructor.

TCED390 (1-4)
Internship
On-the-job internship experience for those students seeking industrial experience which cannot be simulated in a classroom setting. A range of 120 clock hours of work are required for each credit. Selected in consultation with the student’s advisor. May be repeated.

TCED456 (3)
Safety and Loss Control
Safety and the fundamentals of accident prevention with emphasis on schools, school laboratories, and industrial applications. Introduction to the total program of loss control in industry, including the legal implications for both school and industry. Emphasis on the problem of accident prevention and control. Spring

TCED464 (3)
Transportation Technology
The field of transportation as related to technology education at the secondary level. Material handling, transportation involving space and atmospheric, marine, and terrestrial modes included.

TCED465 (3)
Communication Technology
Study in the field of communications as related to the secondary level in technology education. Emphasis on broadcasting, computers, drafting, photography, graphic arts, telecommunications, and their effect on society.

TCED466 (3)
Energy Utilization
Study of different types of energies used by modern society, how they have changed society, and implications for the future.

TCED470 (3)
Manufacturing Technology
Study of the manufacturing process as it relates to the teaching of technology education at the secondary level. Emphasizes materials and processes, research and development, management, marketing, and sales.

TCED275/485 (1-3)
Topics in Repeatable in various areas.

TCED495 (1-3)
Portfolio Development
Helps the student develop a traditional or electronic portfolio for employment or continuing educational purposes. Emphasis in direction, development, and refinement of the individual portfolio. Repeatable to 3 credits. Prerequisites: minimum of 30 credits in a major and permission of the instructor. Fall

TCED597 (1-3)
Independent Study
Individual study or research under the direction of a staff member. Repeatable to 6 credits. Prerequisite: Permission of department chair.
