The study of history examines humanity through time. It contributes to both social and individual identity and expands awareness beyond the confines of time and place. Analysis of the philosophy of government and international relations enhances one's comprehension of citizenship and membership in the community of nations. The Department of History and Political Science promotes such study within the framework of a Christian world view. In addition to the quest for truth, this perspective emphasizes both individual and corporate responsibility for service to humanity.

The department's General Education courses and majors and minors provide a basic component of liberal arts education.
