GENERAL EDUCATION

Philosophy of General Education
The rapid expansion of knowledge in a multi-cultural world requires those who would be truly educated to adopt a philosophy of lifelong learning. One must engage the mind in the study of many fields, from the fine arts to the empirical and social sciences. This broad encounter with varied perspectives and the exposure to knowledge gained from many disciplines forms the domain of General Education, one of the two pillars of American higher education. By contrast, the other pillar is one’s chosen major, usually a focused study of a specific discipline and the development of required skills.

Thus, the General Education program encourages students to reach beyond the mere exercise of certain skills and the accumulation of present knowledge. Although the faculty deeply respects learning, it considers another goal equally essential—that of producing Christian alumni notable for their culture, character, civility, and intellect. Thus, the faculty seeks to prepare graduates who possess the ethical values, interests, abilities, and analytical thinking for both leadership and service, so that they may contribute effectively to their homes, companies, communities, and churches. Transmitting this common yet distinctive heritage—along with an appropriate level of knowledge and skills—forms the essential purpose of General Education at Andrews.

General Education is more than simply completing a specified list of courses. The faculty desires that undergraduates go beyond the mere study of their chosen disciplines to focus on developing spiritual strength, Christian values, and social abilities. As a result, the General Education program strives to foster an atmosphere in which each student is encouraged to:

- Construct a thoughtfully conceived world view that recognizes the roles of Scripture, nature, and human discovery as sources of truth. Moreover, living from this perspective means consciously making Christian convictions explicit and applying them ethically, as well as articulating individual values from the viewpoint of one’s chosen profession.
- Understand the heritage and mission of Andrews University in furthering the cause of Christ within the context of Seventh-day Adventist faith and practice. Thus, one is to affirm in mind and practice the importance of the Christian way of life as revealed in Scripture. This implies compassionate behavior toward other individuals as well as respect for the dignity of all peoples, recognizing their creation in the image of God.
- Enjoy camaraderie with many individuals, form enduring friendships within the diverse campus community, and esteem the sacred nature of marriage.
- Evaluate one’s interpersonal effectiveness, including the ability to work in groups while maintaining the ability to think for oneself, and strive to enlarge the scope of all personal abilities.
- Understand one’s role and responsibilities as a citizen in a secular society and as a member of a religious community; and then, beyond understanding, to respond with thoughts, with emotion, and with action to the needs of one’s wider community.
- Strengthen the ability to judge clearly, observe accurately, draw reasonable inferences, perceive relationships, and to show the ability to discriminate among alternatives and design creative strategies to solve problems.
- Enjoy the cultural achievements of humanity and foster participation in creative and aesthetic activity.

General Education Goals
To be well-informed, participating members of society, graduates must be knowledgeable in many areas. Andrews University considers the following areas to be important and designs its curriculum to help students meet the goals.

- Religion—From a study of faith, ethics, and doctrine, students will gain an experiential understanding of God’s divine plan for their lives.
- Language/Communication—Through practice, students will develop strategies for effective oral and written English communication. A Bachelor of Arts student will learn to communicate in a foreign language at the intermediate level.
- Fine Arts/Humanities—As students study and experience literature, ideas, and the performing and visual arts, they will come to understand how civilization expresses itself.
- History—Students will understand the development over time of various civilizations, including their social and political structure, religions and ideas.
- Life/Physical Sciences—Students will experience the scientific method of studying the natural universe and the current way of understanding it.
- Mathematics and Computer Literacy—Students will develop the logical, mathematical, and computer skills essential in modern technological society.
- Service—Students will apply their knowledge and skills to the benefit of others by identifying with and serving in a selected community.
- Social Sciences—Students will come to understand human-behavioral theories and perspectives as manifested in social, geographic, political and economic relationships.
- Fitness Education—Students will study and apply the principles of health and fitness to their own lives.
- Multiculturalism/Diversity—Students will understand how people of various groups and cultures are shaped by their heritages and how the oneness in Christ of all believers impacts communication with and service to others regardless of cultural background, gender, disability, religious beliefs, or ideological differences.

Transfer Student Policy
These guidelines pertain to transfer students, not transient students. See below for definitions.

Transfer Students. To qualify as a transfer student one must have earned 24+ credits prior to entering Andrews University from another college/university.

Transient Students. Students who begin at Andrews University and wish to take and transfer credit from another college/university are, by definition, transient students. The below guidelines do not apply for these students; they are required to fill out a petition form prior to attending the other institution.

Andrews University views the general education curriculum in two distinct ways when working with transfer students.

Mathematics and English Composition II should be recognized as core foundation skills needed for all degrees, thus these two disciplines should continue to carry extra weight and should be at least equal to Andrews University course expectations.

All other General Education transfer courses should be treated generously upon credit articulation. The following guidelines will be used when reviewing transfer student courses.
2010–2011 Transfer Student Credit Articulation Guidelines for BA/BS General Education

Religion—Students transferring from a Seventh-day Adventist college/university must take a combined total of four religion courses.

Students transferring from a non-Seventh-day Adventist college/university must take one course per academic year in attendance at Andrews University (see schedule below).

<table>
<thead>
<tr>
<th>Credits in Residence to Complete Degree</th>
<th>Religion Courses Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>30–39</td>
<td>one course</td>
</tr>

</tr>
</tbody>
</table>

English—2 courses
- English Composition
  - English Composition I: An introduction to written composition. A general freshman composition course.
  - English Composition II: An introduction to general research and/or critical writing from sources using documentation.

Communication—1 course
- A speech course:
  - Public Speaking
  - Interpersonal Communications

History—2 courses
- 1 Ancient World History course
- 1 Modern World History course
  - May substitute American History course

Fine Arts/ Humanities—2 courses
- Any fine arts course
  - Art History or Appreciation
  - Music History or Appreciation
  - Literature History or Appreciation, 200-level or higher literature
  - Philosophy
- Applied art for a minimum of 3 credits

Life/ Physical Sciences—2 courses with labs
- 1 Life Science course
  - Biology, Environmental or Nutrition
- 1 Physical Science course
  - Chemistry or Physics

Mathematics—1 course
- The course must be clearly equivalent to MATH145 Reasoning with Functions.
  - Courses that will be accepted include: College Algebra, College Algebra with Trigonometry, Precalculus, Precalculus Algebra, Precalculus Trigonometry, Calculus, a Cambridge “A Level” pass in Mathematics, or AP Calculus.

Computer Literacy—1 course
- A lab-based course covering multiple computer skills necessary for college success, e.g. a working knowledge in word processing, spreadsheets and PowerPoint (a course taken for a computer-related major, by petition approval only).

Service—1 course
- Course relating to service and/or service fieldwork upon petition approval

Social Sciences—2 courses
- Sociology, Psychology, Anthropology, Marriage and Family, Geography

Fitness Education—4 courses
- 1 course in concepts of health/wellness
- 3 activity courses

2010–2011 Transfer Student Credit Articulation Guidelines for Professional Degrees General Education

Religion—Students transferring from a Seventh-day Adventist college/university must take a combined total of four religion courses.

Students transferring from a non-Seventh-day Adventist college/university must take one course per academic year in attendance at Andrews University (see schedule below).

  - English Composition II: An introduction to general research and/or critical writing from sources using documentation.

Communication—1 course
- A speech course:
  - Public Speaking
  - Interpersonal Communications

History—1 course
- Ancient World History
- Modern World History
- American History, Canadian History (for Canadian students)

Fine Arts/ Humanities—1 course
- Any fine arts course
  - Art History or Appreciation
  - Music History or Appreciation, ensemble music
  - Literature History or Appreciation, 200-level or higher literature
  - Philosophy
  - Applied art for a minimum of 3 credits

Life/ Physical Sciences—1 course with lab
- 1 Life Science course
  - Biology, Environmental or Nutrition
  - Chemistry or Physics

Mathematics—1 course
- College-level math, including statistics

Computer Literacy—per department
- Check with your department program for requirements

Service—1 course
- Check with your department program for requirements

Social Sciences—1 course
- Sociology, Psychology, Anthropology, Marriage and Family, Geography

Fitness Education—2 courses
Honors General Education (SAGES)
The Andrews Honors Program offers a series of interdisciplinary courses which apply to the General Education requirement. Scholars Alternative General Education Studies (SAGES) is described on p. 86.

General Education Mathematics
The Andrews General Education mathematics requirement consists of a skill requirement, which should be met first, and a reasoning requirement, which should be fulfilled no later than the second year of college.

The Andrews Mathematics Placement Examination (MPE) provides information essential to planning the college career. Subject to exceptions listed below, all new students, including transfer students, must take the MPE during the first semester of residence and before taking any mathematics courses.

The MPE takes one hour, no calculators are allowed, and there is a fee which may be charged to the student’s account. (See Fee Schedule on p. 58.) It is given during Orientation Week, at other convenient times throughout the year, and each spring at participating Adventist academies. Three months must normally elapse between tests. Similar tests taken elsewhere are not recognized. The MPE score is valid as a prerequisite for mathematics courses for three years after it is earned.

The skill requirement is met by an MPE score of at least P2, showing competence in arithmetic and high school algebra.

At a minimum, the entering student should be proficient in addition, subtraction, multiplication and division of whole numbers, fractions, and decimals, and should be able to handle percentage problems. The student should not need a calculator to find answers to problems no more difficult than 9x6=54, 13-21=-8, 2(3/14)=3/7, or 4/0.02=200.

Any student with an ACT math score of 17 or below, or an SAT math 650 or below, and many higher scoring students will need to do serious study and review to achieve a score of P2 on the MPE. Students should do everything possible to improve mathematics performance before coming to campus. A thorough review of algebra the summer before enrolling in college will pay great dividends even if the student places into the skill course.

Specific suggestions for self-evaluation and review including sample questions may be found on the web site www.math.andrews.edu (click on “Mathematics Placement Examination”).

The skill course, MATH091 and 092. Students with MPE scores of E0, E1, M0, M1, P0, or P1 at the time of enrollment must enroll in MATH091 Arithmetic and Algebra Review, or engage in other study to achieve a score of P2.

Many students, including all who score E0 or M0, should plan to enroll first in MATH091 and then in MATH092 (for two successive semesters) to bring their skills up to the required level. Completion of the MATH 091/092 Arithmetic and Algebra Review sequence fulfills the skill requirement and awards a P2 score.

The principal means of instruction in MATH 091/092 is ALEKS, an on-line tutorial system developed at the University of California. Instruction is entirely individualized and students can advance as rapidly as their capacity will allow. The faculty instructor consults with students, tracks the student progress and is available for individual assistance. Each student is assigned to a cluster of about 15 students supervised by a lab instructor, who provides one-on-one assistance during class time. At other times the student can work on any computer with a web connection, or use a computer in the Mathematics Tutoring Center and receive help from a tutor. See MATH091/092 course descriptions, p. 171.

The reasoning course, MATH145. MATH145 Reasoning with Functions is the course which most non-science students will find most appropriate for meeting the reasoning requirement. See course description on p. 171. MATH 166, 167, 168, 182, and 141 also meet the reasoning requirement.

Transfer policy. Courses transferred to meet the reasoning requirement must be broadly equivalent, both in content and level, to those offered at Andrews to meet the requirement. Andrews students who wish to take a course elsewhere to meet the reasoning requirement must first meet the skill requirement, and must have the proposed course accepted by petition before enrolling in it. Courses titled Intermediate Algebra, Elementary Algebra, Basic Algebra, Pre-algebra, College Arithmetic, or Business Mathematics may prepare the student for the MPE but do not normally meet the reasoning or the skill requirement and do not apply toward graduation.

Exceptions
1. Students who at admission transfer College Algebra, College Algebra with Trigonometry, Precalculus, Precalculus Algebra, Precalculus Trigonometry, Calculus, a Cambridge “A Level” pass in Mathematics, or AP Calculus fulfill the mathematics reasoning requirement. They do not have to take the MPE and the math skill requirement is waived.
2. Some courses other than those listed in 1. above may be accepted for the reasoning requirement, provided they are presented at admission and the skill requirement is separately fulfilled. Current criteria will be applied case-by-case. Students wishing to have a course evaluated should bring a description to the Mathematics Department.
3. Students who transfer from a four-year college into Physical Therapy or Clinical & Laboratory Sciences and are classified as seniors in their first year at Andrews are deemed to have met the mathematics requirement of the college or university from which they are transferring. The Andrews mathematics requirement is waived and these students do not have to take the MPE.
4. Students enrolled in the English Language Institute are not required to take the MPE until the first semester of enrollment in regular college-level courses.

Multiculturalism/Diversity in the General Education Curriculum
Beginning with the 2005–2006 Bulletin, General Education at Andrews University includes an explicit emphasis on multiculturalism and diversity. This emphasis recognizes the historical development of various cultures and groups in the United States, the global nature and mission of the Seventh-day Adventist Church, and the diverse student body and faculty of the university with more than ninety countries from around the world represented on campus. The focus on multiculturalism and diversity includes specific emphasis in the following courses: COMM104 Communication Skills, BHSCI100 Philosophy of Service, ENGL115 English Composition I, RELT100 God and Human Life, and HIST117 & 118 Civilization and Ideas I & II.

Professional-Degree, General Education Requirement Adjustments
Requirements may vary slightly for professional degrees. The General Education table on p. 39 summarizes these adjustments.
Service-Learning Requirements

Service to others is a central emphasis of the Andrews University Mission Statement. The General Education curriculum, therefore, includes an emphasis on service so that all graduates will understand the importance and rewards of service activities.

The service-learning component consists of two requirements: (1) BHSC100 Philosophy of Service (2 credits), and (2) Fieldwork (0–2 credits).* The fieldwork requirement can be met in three ways: by registering for BHSC300 Philosophy of Service Fieldwork (2 credits), by taking an “S” course (service-learning course) in the student’s major or minor (such courses are marked with the symbol “S” in the Bulletin), or by waiving the requirement based on the steps outlined in the “Service Learning Packet,” available in the Behavioral Science Department. Larry Ulery supervises the waiver process for the fieldwork requirement.

A student in a degree program which includes Service/Fieldwork who does not complete the program will need to complete the Service/Fieldwork requirement as specified.

* Transfer students with two years of course work elsewhere choose to take either BHSC100 or Fieldwork.

GRADUATE PROGRAMS

Graduate education at Andrews University looks beyond the traditional preservation of knowledge and the advancement of disciplines to the integration of learning with Christian faith. The graduate faculty seek to challenge and guide students in their search for knowledge, to motivate them with a keen desire to learn, and to develop both personal resourcefulness and a sense of their own responsibility in the quest for greater competence in their chosen academic discipline.

Admission

The graduate programs at Andrews University are characterized by academic quality, attention to research, close individual student/professor interaction, and an emphasis on the spiritual dimensions of the various content fields. The university welcomes students in harmony with these ideals to apply for admission to its graduate programs.

How to Apply

Request Application Materials
Telephone: 800-253-2874 toll free or 269-471-6321
Web site: www.andrews.edu/grad/
Postal Address:
Office of Graduate Admissions
Andrews University
4150 Administration Dr
Berrien Springs MI 49104-0620 USA

Apply Early. To avoid delays in processing an application and to provide ample opportunity to apply for scholarships, financial aid, visas, and/or university housing, students should file their applications 6–12 months before they expect to enroll.

General Admission Requirements

Follow These Steps. The Office of Graduate Admissions will send an application packet, or the applicant can download it from the website listed above, containing the items mentioned below. Students must

- Fill out the Application for Graduate Admission form and return it with the nonrefundable $40 application fee. The application deadlines are July 15 for fall semester, November 15 for spring semester, and for summer semester, Term 1 March 15, Term 2 April 15 and Term 3 May 15. These deadlines refer only to those applying for programs on campus.
- Prepare a 500-word Statement of Purpose explaining why they want to take a graduate degree at Andrews University.
- Complete the information asked for on the Professional Experience form. (Applicants for the MS: Nursing program, DScPT and post-professional DPT must submit a copy of their current license.)
- Ask professionals who know them well, such as advisors, major professors, an administrative officer of current employing organizations, etc., to complete Graduate Recommendation forms and submit them directly to Andrews University. Relatives of the applicant should not make evaluations. Most programs require two recommendations, but students applying for doctoral, EdS, or any seminary program must submit three recommendations. Some departments/programs require evaluations from specific individuals and may require additional letters of recommendation.
- Ask for an official transcript of credit from the registrar(s) of the school(s) where undergraduate and/or graduate courses were taken. Official transcripts of all previous post-secondary academic work must be sent directly from the Andrews University Office of Graduate Admissions, or delivered in a sealed envelope with the issuing school’s seal stamped across the envelope flap. If English is not the medium of instruction in your school, an official, literal English translation must also be sent. Degrees or work received from institutions generally considered to be diploma/degree mills are not evidence of prior academic work.
- Arrange to have Graduate Record Examination (GRE) or Graduate Management Aptitude Test (GMAT) scores sent directly to Andrews University. Seminary professional-degree applicants are not required to take these exams unless asked to do so. All other applicants must follow the information below.

Required Examinations. Applicants for graduate programs, except the professional degree programs in the Theological Seminary and those listed below, must take either the GRE General Test or the GMAT. Exams are to be taken no more than five years before the date of admission. Students are expected to take the GRE General Test or the GMAT prior to enrollment. At their school’s/department’s/program’s discretion, they may be allowed to enroll for a maximum of one semester before taking the exam. They may not enroll for a second semester prior to meeting this requirement. In order to be eligible for the Andrews Graduate Scholarship (see p. 75), students must complete the exam prior to the start of the following term after initial enrollment (required even if the student does not register for coursework that term). Scholarship money will not be applied retroactively to any coursework started prior to taking the exam. Official transcripts of test results must be on file in the Office of Graduate Admissions before applicants are accepted on regular status.

All EdD, PhD, ThD programs and the EdS: School Psychology require general GRE test scores prior to admission. In cases of extreme hardship students applying to the EdS: School
