enrolling in it. Courses titled Intermediate Algebra, Elementary Algebra, Basic Algebra, Pre-algebra, College Arithmetic, or Business Mathematics may prepare the student for the MPE but do not normally meet the reasoning or the skill requirement and do not apply toward graduation.

**Exceptions**

1. Students who at admission transfer College Algebra, College Algebra with Trigonometry, Precalculus, Precalculus Algebra, Precalculus Trigonometry, Calculus, a Cambridge “A Level” pass in Mathematics, or AP Calculus fulfill the mathematics reasoning requirement. They do not have to take the MPE and the math skill requirement is waived.
2. Some courses other than those listed in 1. above may be accepted for the reasoning requirement, provided they are presented at admission and the skill requirement is separately fulfilled. Current criteria will be applied case-by-case. Students wishing to have a course evaluated should bring a description to the Department of Mathematics.
3. Students who transfer from a four-year college into Physical Therapy or Medical Laboratory Sciences and are classified as seniors in their first year at Andrews are deemed to have met the mathematics requirement of the college or university from which they are transferring. The Andrews mathematics requirement is waived and these students do not have to take the MPE.
4. Students enrolled in the Center for Intensive English Programs are not required to take the MPE until the first semester of enrollment in regular college-level courses.

**Multiculturalism/Diversity in the General Education Curriculum**

Beginning with the 2005–2006 Bulletin, General Education at Andrews University includes an explicit emphasis on multiculturalism and diversity. This emphasis recognizes the historical development of various cultures and groups in the United States, the global nature and mission of the Seventh-day Adventist Church, and the diverse student body and faculty of the university with more than ninety countries from around the world represented on campus. The focus on multiculturalism and diversity includes specific emphasis in the following courses: COMM104 Communication Skills, BHSC100 Philosophy of Service, ENGL115 English Composition I, RELT100 God and Human Life, and HIST117 & 118 Civilization and Ideas I & II.

**Professional-Degree, General Education Requirement Adjustments**

Requirements may vary slightly for professional degrees. The General Education table on p. 51 summarizes these adjustments.

**Service-Learning Requirements**

Service to others is a central emphasis of the Andrews University Mission Statement. The General Education curriculum, therefore, includes an emphasis on service so that all graduates will understand the importance and rewards of service activities.

The service-learning component consists of two requirements: (1) BHSC100 Philosophy of Service (2 credits), and (2) Fieldwork (0–2 credits).* The fieldwork requirement can be met in three ways: by register for BHSC100 Philosophy of Service Fieldwork (2 credits), by taking an “S” course (service-learning course) in the student’s major or minor (such courses are marked with the symbol “S” in the Bulletin), or by waiving the requirement based on the steps outlined in the “Service Learning Packet,” available in the Behavioral Science Department. Larry Ulery supervises the waiver process for the fieldwork requirement.

A student in a degree program which includes Service/Fieldwork who does not complete the program will need to complete the Service/Fieldwork requirement as specified.

* Transfer students with two years of course work elsewhere choose to take either BHSC100 or Fieldwork.
