LETTER FROM THE SCHOOL CHAIR

Dear Student,

The Andrews University School of Social & Behavioral Sciences was established in 1963. Throughout our history, we have sought to develop a quality, broad based interdisciplinary curriculum that prepares students for a variety of directions in graduate work and employment. A major in Behavioral Sciences, Psychology, Sociology or any of our minors will provide preparation for:

- Employment at the undergraduate degree level in such areas as mental health and social services, public health, criminal justice, marketing or business.
- The pursuit of graduate studies in one of the Social and Behavioral Sciences.
- Such professional program as, education, medicine, dentistry, law, psychology, social work, public health, business or ministry.
- Later career changes.

As a student, you are an important reason for our being at Andrews University. In teaching, friendships, and mentoring relationships, our faculty seek to provide the best environment possible so that each student can reach their potential.

Since its founding, the School of Social & Behavioral Sciences has been guided by an underlying philosophy that has emphasized a holistic approach to teaching. We can offer you an excellent faculty (several of whom have been chosen as university Teachers of the Year), meaningful experiences, learning beyond the classroom, a strong research program, the chance to apply new knowledge, and the opportunity for involvement in civic engagement. Faculty include students in a variety of research and projects such as archaeological digs in the Middle East, research on the causes of substance abuse, and strategic planning for the General Conference of Seventh day Adventists. In addition, our faculty and students have led the way at Andrews University in developing civic engagement & community service opportunities.

In studying the Social and Behavioral Sciences at Andrews University, you will work with faculty who are active in their church, in the advancement of their field of study, and in the community. They will help you to understand the Christian basis for equality and justice, to become active citizens in the community, and to prepare you for entry into your chosen profession in the Social and Behavioral Sciences or other fields.

May our heavenly Father bless you on your journey here at Andrews University. Our faculty and staff look forward to working with you in our school.

Sincerely,

Harvey J. Burnett, Jr., Ph.D., LP Associate Professor and Chair

School of Social & Behavioral Sciences

PROGRAMS OF STUDY: OVERVIEW

Below are short descriptions of the areas in which we offers programs. A complete listing of degrees can be found in the table of contents. Requirements for each degree can be found on the following pages.

ANTHROPOLOGY & ARCHAEOLOGICAL ANTHROPOLOGY

B.S. Behavioral Sciences Anthropology,

B.S. Behavioral Sciences: Anthropological Archaeology,

Minor in Anthropology

Anthropologists study humankind and seek to learn about human development, culture, and interaction in social groups. Anthropology has four major subfields: cultural anthropology, archaeology, linguistics, and physical anthropology, other sub-fields include applied, sociocultural, biological, and medical anthropology. The Archaeology subfield examines peoples and their cultures by analyzing artifacts, inscriptions, monuments, and other remains, usually from excavations.

BRAIN & COGNITION

B.S. Psychology: Brain & Cognition

Brain & Cognition prepares students for exciting careers in scientific fields involving the study of the brain and its control of behavior. While studying, students are involved in hands-on laboratory experiences, using the latest equipment, as well as class work emphasizing neuronal function, processing by the brain and the latest understanding of topics such as perception, memory, cognition, sensory input, the basis for mental and emotional disorders, drug addiction, and other topics. Research with a faculty mentor is an integral part of the program.

BEHAVIORAL SCIENCES

B.S. Behavioral Sciences,
Minor in Behavioral Sciences

Behavioral Sciences studies the ways in which people respond to the world around them. As a broad field, it encompasses several more specific fields including Psychology, Sociology, and Anthropology. At Andrews University, Behavioral Sciences provides students with a broad understanding of human behavior by taking classes in all three fields.

COMMUNITY & INTERNATIONAL DEVELOPMENT

B.S. Sociology: Community and International Development, Minor in Community and international Development, MSCID Community and International Development

Community development workers perform a wide array of tasks that enable communities at the local or international level to change and improve various aspects in the lives of their residents. They work in settings such as inner city agencies, service-learning organizations, community service organizations, and community advocacy groups, or overseas in international relief and development agencies as well as for church-based mission programs.

CRIMINAL JUSTICE

B.S. Sociology: Criminal Justice,

B.S. Sociology: Criminal Justice Pre-Professional

Minor in Criminal Justice

The Criminal Justice degrees provide a foundation in criminal law, legal procedures, and criminology to help prepare students for a career in a criminal justice profession.

EMERGENCY PREPAREDNESS

B.S. Sociology: Emergency Preparedness

Students in the Emergency Preparedness program study how to prepare for and respond to emergencies. In addition to emergency preparedness courses, students will study various subjects including human relations, culture, stress, development, accounting, and economics.

PSYCHOLOGY

B.A. or B.S. Psychology: General,

B.A. or B.S. Psychology: Pre-Professional,

Minor in Psychology

Psychology studies the mental and behavioral processes of humans. Psychologists seek to understand human behavior, emotion, and thought and how it relates to the world around us. While counseling is the first thing that many people think of, there are many careers that benefit from a degree in psychology, including research, medicine, community workers, teachers, law enforcement, health psychology, and many more. Our Pre-Professional track has a greater focus on research, while the general track focuses more on content courses.

SOCIOLOGY

B.A. Sociology, B.S. Sociology, Minor in Sociology

Sociology studies human social relations, focusing on what goes on between groups of people, concentrating primarily on modern industrial societies. The whole range of human behavior and examination of the various forms of social organizations are open to the sociologist, with equal interest in the past, present, and future versions of those organizations.

DEGREE REQUIREMENTS

Requirements for each program can be found in the following pages. Alongside each list of requirements is a suggested four year plan. The actual sequence of courses may vary based on a student's particular interests, minors, or additional majors. The suggested four-year plans, all include required Andrews Core Experience courses, a complete listing of which can be found on page 25.

The requirements found in this handbook are based on the 2019-2020 Andrews University Bulletin. Please note that the Bulletin, found at bulletin.andrews.edu, will be considered the final word on any requirements regarding class nature, names, numbers, credits available, descriptions, etc. and should be consulted. Andrews University and the School of Social & Behavioral Sciences reserve the right to change or modify requirements for any major, and discontinue any classes. As necessary, a reasonable alternative for completion of degree requirements will be provided to students for courses which have been discontinued.

SUGGESTIONS FOR A GOOD COLLEGE EXPERIENCE

Applying

- Complete your application at www.andrews.edu/apply by July 15 if you plan to start during the Fall semester (August-December) or November 15 for the Spring semester (January-May).
 - Be sure to have contact information on hand for two of the following: principal, viceprincipal, guidance counselor, teacher/professor, pastor, or work supervisor. It's a good idea to ask them ahead of time if you can list them as a reference.
- Complete either the ACT or SAT in time to submit the scores by the above deadlines. You'll need a minimum score of 20 on each ACT subject test or 210 on each SAT subject test.
 - Students with scores lower than the minimum may be admitten on a provisional basis.
 - Junior's in high school may be eligible for early admission with a PSAT composite score of 1100 or higher and a cumulative GPA of 3.25 or higher after the first semester.
- Submit your high school/secondary school transcripts as well as the transcripts for any college courses you may have taken.
 - You must have a high school GPA of 2.5 or higher or a GED score at the 50th percentile or higher
 - If you apply before you graduate from high school, you can send a partial transcript with your application as long as you send the official, final transcript after you graduate.
 - Make sure you include any transcripts from college credits you have taken. This may include AP courses (you must submit the official test scores), dual enrollment courses or online courses (you'll need the transcript from the college/university where you took the course).
- Once your application and all the supporting documents (transcripts etc.) are submitted, your application will be reviewed and you will recieve a letter that outlines your next steps.
- International students should be aware of some variations to the application process
 - Secondary school in some contries may include courses which qualify for advanced standing. Go to www.andrews.edu/go/ug-entrance for more information.
 - You are not required to take the ACT/SAT, however if you can take one of them you may be able to increase your Andrews Partnership Scholarship
 - If English is not your native language or you have not been studying in an institution where English has been the language of instruction for a minimum of four years, you will need to take an English Proficiency exam. The exam must be taken within the two years prior to admission.
- Go to www.andrews.edu/undergrad for more information about applying to Andrews University. You can also contact undergrad@andrews.edu with any questions.

After you've been accepted

- Check your acceptance documents for instructions on what you'll need to do before arriving on campus.
- Activate your Andrews Username by going to vault.andrews.edu and clicking on "username activation"
- At least two months before the semester starts, visit Registration Central by going to vault. andrews.edu and log in with your Andrews username and password.
 - Follow the steps listed to update any necessary biographical information.
 - Contact your advisor(s), listed on your ivue page (also at vault.andrews.edu), to discuss

which classes you should register for. Most advisors prefer to work via email. Be sure to include your name and your Andrews University ID number (if you don't know it, you can find it on your ivue page under your picture). Keep in mind that many professors do not keep regular office hours during the summer and so may take a few days to respond to emails.

- Once you and your advisor have determined your course schedule, your advisor will give you instructions for how to register for courses online. Once you have registered online, it's a good idea to email your advisor to confirm that the registration was completed.
- Set up your payment plan, working with your financial advisor to include loans and scholarships. Make the first payment before the last day to change registration (10 days from Fall and Spring start, 3 days in Summer). You may use registration central to directly re-enroll if dropped at a financial clearance point, until the last day to change registration.
- If you choose to order your textbooks online, be sure that they will arrive before your first day of class as many courses may require you to use the books on the first day.
- Your Andrews University username is also your Andrews email (your username followed by @ andrews.edu) Be sure to check your Andrews email regularly as you are responsible for acting on information sent. Any communication from the University, your department, your professors, or your advisors will go to your Andrews email. If you have trouble logging into your Andrews account or email, contact helpdesk@andrews.edu or (269) 471-6016.

Freshman Year

- Focus on completing the majority of your general education program and foundational requirements. Many of our students declare majors within our School in their sophomore year, so don't worry if you're undecided during the first year, your advisor can help you in fine-tuning your plans for the future.
- Become acquainted with several faculty members in the School

Sophomore Year

- After completing most of the general requirements the first year, work on basic major requirements
- Write a preliminary resume.
- Take advantage of service opportunities giving exposure to problems and solutions of living in our culture

Junior Year

- Continue completing basic requirements
- Begin research with faculty and continue throughout junior year.
- Think about letter of recommendation resources (e.g., research supervisors, professors of small classes etc.)
- Explore opportunities for joining professional organizations within your field
- Attend the state's annual professional meeting in your area of interest
- Keep attending School colloquia.
- Do fieldwork if interested in clinical or counseling psychology.
- Register for next year's November GRE at the Counseling and Testing Center.
- Write to prospective schools for application materials.
- During the summer, buy study guides for the GRE and begin studying systematically.

- Begin to investigate prospective graduate programs: Consult with faculty, use library resources, call schools and get their information packets, compare strengths and weaknesses of each program
- Update resume
- During the summer prepare paper(s) for publication from your research.
- Research sources of funding for graduate school grants, assistantships, fellowships, scholarships.

Senior Year

- Complete, as much as possible, degree requirements, research, and fieldwork that may apply towards Graduate School entrance by December.
- By September:
 - Complete & Mail application for the GRE
 - Find out about any additional requirements or tests needed by grad programs
 - Begin requesting letters of recommendation from faculty.
 - Fill out Graduation application(s) retrieved from the Office of Academic Records.
 - Be sure your Graduation application has been submitted to Academic Records by the date indicated
- By November:
 - Make sure the records office has received any transcripts from classes completed elsewhere
 - Write a letter of intent & complete requirements needed by grad programs
 - Take the GRE
- By February:
 - Order your graduation regalia from the website provided to you (make sure you know if your degree is a BA or a BS and order accordingly. If you don't know, don't guess! Ask your advisor or check your ivue page)
- By March:
 - Make sure that Incomplete/Deferred Grades are completed
 - Pay your complete bill by finals week so that you can get graduation tickets
- During Finals Week & Graduation Weekend
 - Pick up your graduation tickets
 - Attend Graduation Practice, Vespers, Events, and Graduation Day

RESOURCES AVAILABLE FOR STUDENTS

ACADEMIC TOURS

There are many academic tours offered through various departments on campus. Academic tours are a great way to earn academic credit through hands-on-learning and broadening cultural horizons. The School of Social & Behavioral Sciences offers three overseas tours as well as a research tour to Chicago. Many other departments also offer tours which fulfill required Andrews Core Experience credits. For more information contact the school' Administrative Assistant at bradfiee@ andrews.edu

COOPERATIVE RESEARCH PROJECTS

These projects usually involve work with a professor on an on-going research project. Students who have taken research courses and have some knowledge of statistics are usually preferred. Cooperative research projects not only give students research experience and potential publications (which look great for graduate school), but also allow students to see how research projects are brought together. Ask the school's Administrative Assistant for more information.

COUNSELING & TESTING CENTER

The Counseling and Testing Center, as the name suggests, offers both counseling services and various testing services. They offer a variety of counseling options including individual counseling, career counseling, group counseling, and marriage and pre-marriage counseling and more as needed. All of the counseling options are free for students. In addition they offer various kinds of testing, including SAT/ACT, CLEP, GRE, English Proficiency and some Professional Certification Programs. For more information go to www.andrews.edu/ctcenter or contact the Counseling and Testing Center at 269-471-3470 or ctcenter@andrews.edu

INSTITUTE OF ARCHAEOLOGY & THE HORN ARCHAEOLOGICAL MUSEUM

A resource for majors who have an anthropology or anthropological archaeology emphasis, the Institute includes a research library and artifact collection of more than 6,000 objects which can be studied, including 3,000 cuneiform tablets. The institute publishes archaeological works and stores dig photographs and items, including the work of Nelson Glueck.

INSTITUTE FOR THE PREVENTION OF ADDICTION (IPA)

The IPA conducts research on the cause and extent of alcohol and drug use within Adventist populations as well as the general public, which is used to develop educational and prevention programs. Our majors are often involved with the IPA as research assistants and assistants within the IPA education/prevention programs. To learn more about this option, please contact the IPA Director, Dr. Duane McBride, mcbride@andrews.edu.

LIBRARY

The James White Library (JWL) at Andrews University is an excellent resource for both undergraduate and graduate students. A full listing of what is available is at www.andrews.edu/library/. All materials are available free to students, Faculty, Staff, Alumni and community card holders. Along with books, JWL has a large collection of journals in all areas, both academic and general. A major portion of those journals are found through online databases made accessible to students through the library

website. In addition to journals, the library also has access to over 120 electronic databases which can be very valuable when doing research or homework.

PRACTICUMS & FIELDWORK

Students who wish to gain practical work experience in their area of interest may choose to do a practicum in a human services setting where fieldwork activities help the student to experience and understand their major area of interest. Many students do their practicum at institutions in the surrounding area. Students interested in a practicum or fieldwork should speak to the School chair.

PROFESSIONAL CONFERENCES

Andrews University's location allows students the chance to attend many professional conferences. We are close to Chicago, Detroit, Toronto and Indianapolis, all of which are often chosen to hold professional meetings. When possible, the School takes students to these conferences, sometimes even offering students the opportunity to present their own research. These opportunities allow students to grow and meet influential people in their professional fields. Experience at the undergraduate level in making presentations at such professional conferences make students strong candidates for acceptance into graduate school.

PSI CHI

Psi Chi is the national honors society for psychology. Founded in 1929, Psi Chi is designed to encourage, stimulate and maintain scholarship in, and advance the science of psychology. It is an affiliate of the American Psychological Association and a member of the Association of College Honor Societies. Psi Chi has more than 500 chapters at accredited colleges and universities nationwide. Students – both undergraduate and graduate – are selected to join the society based on academic achievement in psychology courses and background in the field of psychology. Students interested in Psi Chi should contact Dr. Bailey at kgbailey@andrews.edu.

READERS

Students may take advantage of opportunities to be a reader, giving them a chance to work closely with faculty and getting to know the social and behavioral sciences field better by helping with grading and tutoring. The School's Administrative Assistant can help you by answering questions about becoming a student reader. Contact her at bradfiee@andrews.edu or stop by Buller 211.

STUDENT AFFILIATIONS IN PROFESSIONAL SOCIETIES

Students taking courses in one of the social and behavioral science areas may wish to become a student affiliate of a professional society. There are several to choose from including the American Psychological Association (APA), the American Anthropology Association (AAA), and the American Sociology Association (ASA). Being a student affiliate allows students to subscribe to professional journals at member rates as well as attend professional conferences at reduced registration rates.

STUDENT MISSIONS

Campus Ministries coordinates the student missions program through Adventist Missions and He Said Go. Various positions are available and can range between a summer, a semester, a school year or more. The Student Missions department of Campus Ministries assists with application and appointment and also provides support to student missionaries throughout their time as a missionary.

In addition, student missionaries are recognized at graduation by wearing distinct cords as well as being recognized in the graduation program handed out to all attendees.

TEACHER CERTIFICATION

In collaboration with the Andrews University School of Education, teacher certification is available in Sociology. Students seeking teacher certification on the secondary level may enroll in the Sociology Minor. Any student interested in obtaining their certification should contact the School of Education for application procedures.

TUTORING

Tutoring is offered through the office of Student Success. Any student may request tutoring for a class in which they are struggling. The tutor will be another student who excelled in that particular class. Students who have done well in a class may also sign up to work as a tutor through the office of Student Success.

WRITING CENTER

Offered by the English Department, the writing center is a resource for all students who need someone to help edit their papers. Students who visit the writing center can expect quality help with editing, sentence structure, and writing flow.
