

# 1 WEEK SUMMER BOOSTER COURSE

RTU is Offering an innovative 1 week College Course for Undergraduate Engineering, Physics, Science Majors, and Pre-Med Students.

## Advancements in NanoMedicine & Medical Physics

This one week multidisciplinary course is the first of its kind in the United States. It provides revolutionary approaches in tumor nanotherapy, drug delivery nanosystems, nanosensor technology, and the use of medical imaging and therapeutic modalities in modern physics. This course will discover what NanoMedicine and Medical Physics are and explore what career options are available in this exciting field.

### Program Info:

Location: Andrews University  
Berrien Springs, Michigan 49104  
USA

Dates: June 29 - July 3, 2015

### Program Includes:

- ♦ 1 Graduate Level Course (1 Credit)
- ♦ No Pre-Reqs needed
- ♦ Room and Board (optional)

### Program Details

#### Week Layout:

Monday, 29th	Tuesday, 30th	Wednesday, 1st	Thursday, 2nd	Friday, 3rd
Radiation & Imaging	Nuclear Medicine	Medical Dosimetry	Nano Technology	Nanomedicine

Course Offered &  
Directed By:

**Radiological  
Technologies  
University VT**

Accredited Member, ACICS; AC-0027
