

# STUDY IN THE U.S.

RTU is Offering an innovative College Course for Undergraduate Engineering, Physics, Science Majors, and Pre-Med Students.

## Advancements in NanoMedicine & Medical Physics

This, two week multidisciplinary program is the first of its kind in the United States. This course provides an introduction to revolutionary approaches in tumor nano-therapy, nano-technology and the use of medical imaging and therapy in modern medical physics.

### Program Info:

**Location:** Department of Physics  
Andrews University  
Berrien Springs, Michigan, 49104  
USA

**Dates:** July 13-July 24, 2015

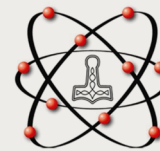

### Included Attractions:

- ♦ *Guided Tour of Chicago*
- ♦ *Trip to Michigan City, Outdoor Mall & Beach*
- ♦ *Attend a South Bend Cubs Baseball Game*

### Program Details:

- ♦ 1 Graduate Level Course (2 Credits)
- ♦ Career Option Discussion
- ♦ Clinical Site Visit
- ♦ "Introduction to US Culture" Series
- ♦ No Prerequisites Needed
- ♦ Room and Board (optional)

### Course Offered & Directed By:

Radiological  
Technologies  
University VT

Accredited Member, ACICS; AC-0027
