## Testing

Test the prototype to see how well it works.

| Design Version #                    | Date: |    |  |
|-------------------------------------|-------|----|--|
| 1. How did you test it?             |       |    |  |
|                                     |       |    |  |
|                                     |       |    |  |
|                                     |       |    |  |
|                                     |       |    |  |
| 2. How well does the invention work | ί?    |    |  |
|                                     |       |    |  |
|                                     |       |    |  |
|                                     |       |    |  |
| 3. Does it solve the problem?       | YES   | NO |  |
|                                     |       |    |  |
| 4. Do you need to make it better?   | YES   | NO |  |

Don't worry if it didn't work. Engineers don't get it right at first either! They keep fixing and improving things until it works.
