COURSE MATERIALS INFORMATION

Required textbooks and other course materials must be provided to the bookstore. Include the following statement in your syllabus,

*For ISBN and price information, please see the listing at the Bookstore www.andrews.edu/bookstore.*

The Higher Education Opportunity Act (HEOA) requires that institutions of higher education provide information to students about required course materials via their online preregistration and registration course schedules. Institutions are required to post the ISBN and retail price information for every recommended or required book or supplemental material, for all courses listed in its course schedules. If the ISBN is not available, the institution must provide the author, title, publisher, and copyright date. The HEOA textbook provisions were enacted to help students decrease costs, by providing them with timely information on course materials so they might make informed purchasing decisions.

Andrews University complies with the Federal regulations by providing a link on the course schedules webpage to the Andrews University Bookstore, where students can see the relevant book information (ISBN and retail price) online. Whether books and other materials are ordered through the bookstore or not, the bookstore will post the HEOA-required information on its website, and on the bookstore shelves. As students search for courses on the course schedules webpage, there is also a link by each course to the syllabus (that has been uploaded to IVUE).
