Department of Medical Laboratory Sciences

## Program for Medical Laboratory Science Affiliated Institutions

Below are the affiliated institutions where MLS students may do their clinical practicum. Please note that institutions accepting students vary from year to year. The process for clinical assignments is generally initiated during the last part of the Fall Semester of the Clinical Year. Students are given a form to rank their clinical site preferences. While consideration is given to each student's preferences, assignments also depend on recommendations from the teaching faculty and the education coordinator of the clinical affiliates. Students are not guaranteed their first-choice clinical assignments. Typically, students are informed of their clinical site assignments before Christmas vacation.

Site Name	Location
AdventHealth Daytona	Daytona Beach, Florida
AdventHealth Manchester	Manchester, Kentucky
AdventHealth Orlando (9 campuses)	Orlando, Florida
Advent Health Porter (5 campuses)	Denver, Colorado
