

COURSE: SPPA 472 CLINICAL PRACTICUM IN AUDIOLOGY
Fall 2006

INSTRUCTOR: Darah Regal, AuD., CCC-A
Assistant Professor of Audiology
Office: Bell Hall, Rm 157A, Office hours posted
Phone: 471-3469
E-mail: dregal@andrews.edu

COURSE DESCRIPTION:

Supervised audiology practicum, report writing and clinical management of hearing impaired clients.

COURSE OBJECTIVES:

During the course of the semester you will develop an undergraduate proficiency in the following areas of audiology:

1. Ability to explain audiological findings including:
 - A. Type and degree of hearing loss and its possible effects on communication to a patient and also to a fellow professional
2. Ability to administer audiometric procedures in a timely manner with good reliability.
3. Demonstrate proficiency in test selection to achieve a good diagnostic evaluation.
4. Clinical maturity in the management of clients.
5. Clear, concise reports of audiological findings.
6. Read, acknowledge and follow all HIPPA guidelines for patient confidentiality.

PREREQUISITES:

Courses: SPPA 331 Basic Audiology or equivalent
SPPA 332 Audiological Procedures

REQUIRED ACTIVITIES:

Important: Please arrive at the clinic ten minutes before the patient's appointment. It is important that you meet all your clinical appointments. If you are ill and cannot meet your appointment, please notify the supervisor prior to the scheduled appointment. **Failure to meet a clinical appointment without an excuse will result in a failing grade. Dress should be appropriately professional.** Jeans, shorts or tank tops are not part of professional attire. Please be very cautious not to wear clothes that reveal too much skin such as your stomach, or back when leaning over to put on earphones or bending over to do tympanometry. Modest professional clothing will be part of your lifelong wardrobe. Please practice wearing appropriate clothing now. If you are not dressed appropriately you may be asked to change before seeing your clients.

1. Clinical Activities - You are required to obtain a **minimum of 15 client contact hours** during the semester. Clinical contact hours include direct clinical contact such as interviews, performing tests, recording results and explaining results. Report writing and waiting for the patient to come are not included. After each session, fill out the patient data and CAP test results on the bottom of the audiogram then turn the yellow copy in to me.

2. Prepare a **written report** for each client that is tested.
 - A. You will need to purchase a USB flash drive for your clinical reports. **ONLY AUDIOLOGY PRACTICUM REPORTS MAY BE ON THIS DRIVE - NO PERSONAL OR OTHER CLASS FILES.** All patients will be given a file number. **NO** personal data will be on the reports until they have been approved by the audiology supervisor. When the report is ready to be printed, please submit your zip drive so personal data can be entered and the report can be printed. **DO NOT** put patient reports on hard drives of any computer.

 - B. The written report is due within **48 hours** after seeing the client. Some clients may require reports within 24 hours so information can be sent to medical professionals. In these cases you will be required to provide a report within the necessary time frame. Wait to complete the audiogram until the report is

finished. For patients seen on Thursday or Friday, the report is due on Monday morning. **The flash drive and/or hard copy of the report should be given to Dr. Regal or placed in her office by the secretary or other faculty members. Do not leave the zip drive in Dr. Regal's mailbox.**

B. If you need to make corrections to your report, you will need to re-submit the report within 24 hours. Please **turn in all reports** that have corrections on them with the most recent draft. Turn in the revised report to Dr. Regal.

C. If no corrections are necessary on the report, you will need to complete the audiogram (in red and blue where appropriate) and submit the report, zip drive and audiogram within 24 hours.

D. When the audiogram and report are completed, with no errors, you will need to mail the original report and an original audiogram (in red and blue) to the patient. Make sure you have a copy of the report and audiogram **before** mailing them.

E. This process should not take longer than 3 weeks per patient. For Patients seen on Thursdays or Fridays the report is due on Monday morning.

3. Be prepared to perform complete battery of audiology tests or assist the audiologist if you feel the testing is beyond you competence.
4. **Maintain a daily log** of clients seen, with record of your responsibilities for the management of the client and the time (hours to nearest quarter) of clinical practice. The audiology practicum log can be obtained in the department.
5. By **3:30 p.m. on Monday of test week** submit **an original and one copy** of the clinical clocks hours in audiology form to the Audiology Clinical Supervisor. After they have been signed by the supervisor the original will be filed and the copy will be returned to the student. You will not receive a passing grade if these forms are not submitted.
6. By **3:30 p.m. on Monday** of test week submit your audiology notebook which will have copies, in chronological order, of all patients you have tested including the case

history form, copy of audiogram and report and all test forms.

These reports must be just like the originals - signatures in ink and the audiogram in red and blue ink.

COMPETENCIES :

1. Perform basic diagnostic audiology battery within the one hour time slot including:
 - a. Puretone a/c threshold audiogram
 - b. Puretone b/c threshold
 - c. SRT with spondee words
 - d. Word Discrimination Ability using PB words
 - e. Use masking when necessary with appropriate levels and symbols
 - f. Immittance testing including tympanograms, reflexes, and reflex decay
2. Provide clear and appropriate instructions for each of the above procedures.
3. Interpret results according to type and degrees of loss.
4. Communicate with the client appropriately for all testing procedures.
5. Write a professional one page report of findings and recommendations.
6. Use Standard American English.
7. Maintain client confidentiality.
8. Attend all scheduled diagnostic appointments and practicum meetings on time.
9. Central Auditory Processing evaluations within 2 hours.

EVALUATION:

The grade for practicum is dependent on your ability to perform audiology tests appropriately, have an appropriate professional attitude and appearance, ability to communicate with patients, written report and your ability to use your time wisely (including arriving on time etc.). A letter grade will be assigned as follows:

94.0 - 100%	A	77.5 - 79.99%	C+
90.0 - 93.99%	A-	73.5 - 77.49%	C
87.5 - 89.99%	B+	70.0 - 73.49%	C-

83.5 - 87.49%	B	65.0 - 69.99%	D
80.0 - 83.49%	B-	Below 65%	F

EVALUATION OF CLINICAL PERFORMANCE

SPPA472

CLINICAL PRACTICUM IN AUDIOLOGY
ANDREWS UNIVERSITY

Student Clinician: _____ Quarter _____ Year _____

Practicum Site: _____ Supervisor _____

Number of Clinical Hours: _____

Mean Score = $\frac{\text{Sum of Scored Items}}{\text{Number of Items Scored (x5)}} =$ _____

Interpretation of Assigned Point Scores:

NA = Not Applicable.

1. **Unacceptable** - Needs excessive direction and/or demonstration from the supervisor.
Does not alter unsatisfactory performance and is unable to make changes.
2. **Below Average** - Needs specific direction and/or demonstration from the supervisor. Has difficulty altering unsatisfactory performance and making changes.
3. **Average** - Needs general direction from the supervisor to perform effectively. Performance is adequate.
4. **Above Average** - Needs occasional direction from the supervisor to perform effectively. Generally capable in the clinical process.
5. **Excellent** - Demonstrates independence by taking the initiative. Makes changes when appropriate and is knowledgeable in various aspects of the clinical process.

1. Assessment Skills

- _____ a. Makes pertinent observations of client
- _____ b. Uses appropriate diagnostic tests
- _____ c. Administers tests accurately
- _____ d. Records and scores responses accurately
- _____ e. Interprets results accurately
- _____ f. Makes appropriate recommendations

2. Reporting Skills

- _____ a. Explains results to client significant others, and to supervisor
- _____ b. Involves significant others when discussing results
- _____ c. Answers questions from client and significant others as accurately as possible
- _____ d. Writes a complete, concise diagnostic report
- _____ e. Completes written reports on time

3. Intervention Skills

- _____ a. Gives clear instructions to the client at each phase of the evaluation
- _____ b. Modifies rate and loudness of speech for the hearing impaired individual
- _____ c. Uses effective verbal and non-verbal reinforcers
- _____ d. Deals consistently and appropriately with off-task behaviors

4. Interpersonal /Professional Skills

- _____ a. Develops rapport with client and significant others
- _____ b. Exhibits a professional manner, (attitude, tact, interest, dress)
- _____ c. Uses Standard American English
- _____ d. Maintains client confidentiality
- _____ e. Utilizes additional resources
- _____ f. Seeks guidance from supervisor
- _____ g. Accepts direction from supervisor
- _____ h. Attends all scheduled evaluations, meetings and conferences
- _____ i. Is punctual to appointment times
