Charges from the Dissertation Secretary

At the completion of your dissertation/thesis process, the following charges will be placed on your school account:

$250 (approximately) for copyediting of dissertation or thesis by Dissertation Secretary. This is for a 300-page document. Fees are computed on a sliding-scale basis in 10-page increments @ $5. Thus a 400-page document would cost $300, and so forth.

$12 ea. for binding the dissertation/thesis.* Students provide bound copies of their dissertation/thesis for Andrews University:
For Seminary doctoral students: 5 bound copies: $60
For School of Education doctoral students: 4 bound copies: $48
For master’s students: 3 bound copies: $36

$18 ea. for binding personal copies of dissertation/thesis for the student. This is optional.

Therefore, a student whose document is 300 pages long and who binds 5 copies (including the personal copy) can expect a final bill of $316, plus tax, just before or immediately after graduation.

This is in addition to LithoTech’s charge for photocopying your document, which will appear as a separate charge on your school statement.

LithoTech charges 12 cents per page to duplicate the document on durable paper (25% cotton rag, acid-free). Therefore, if your dissertation is 300 pages long, and you have 5 copies made (4 for the University and 1 personal copy), you can expect a bill of approximately $180, plus tax, for duplicating.**

*If the dissertation/thesis is thicker than 2 inches, binding charges are a little more.

** Personal bound copies also may be purchased from UMI/ProQuest.
