

# The World is our Campus

## Master of International Development Administration

As the professional market continues to demand specialized knowledge and advanced degrees, graduate studies are a practical, sophisticated, and wise career move. This interdisciplinary masters program has unique advantages.

- » Become competitive with an internationally recognized masters degree
- » Expand global network through a multicultural and professional student body
- » Meet highly qualified professors
- » Work while you study
- » Study in Russian or English each June/July
- » Appropriate degree for humanitarian workers, administrators, public servants, educators, health providers, or social/community needs professionals
- » Affordable financial package
- » Requires bachelor, or equivalent, as a prerequisite
