'Tis the season" for family, for friends, for parties and programs. It's also the season for giving and receiving. What better gift can be given than the knowledge and understanding of our God. We have included several gift ideas below to help make Christmas more meaningful. For young children we have a new set of Bedtime Stories by Miss Brenda. For elementary-aged children we have the Adventures in the Bible series.

Kids of all ages will enjoy the Christmas music from harp, piano and even whistling. You can follow the links to hear samples of these albums.

Finally, for those who are children at heart, we have Glimpses of Our God, which accompanies the adult Sabbath School lessons starting in January, and Understanding Creation, a help to reconcile faith and science in the area of origins.

We wish you God's peace during this season and throughout the coming year.
The Kingdom Scroll

Paul, James and Hannah experience new and exciting adventures in this third book of the Adventures in the Bible Series. Children will learn about the Kingdom of God and how God wants us to take His kingdom to the world. They will be inspired to uncover the treasure found in God’s Word. Paperback, 128 pages. US$11.99. On sale $9.99.

Christmas with the Harp

Christmas With the Harp CD features 15 familiar Christmas songs including It Came Upon A Midnight Clear, Away in the Manger Medley, O Little Town of Bethlehem and The Lord’s Prayer. DVD also available. Audio CD. US$15.98.

Glimpses of Our God

In this, the companion book for first quarter 2012 Sabbath School Bible Study Guides, the author paints a vivid word picture of a holy God. Dr. Davidson shows that all study of God must come from a heart and mind trained in humility, and that ultimately, the more we know about God, the more our love for Him will deepen and intensify, leading to adoration and worship on a grander level. Paperback, 128 pages. US$13.99.

Sacred Heart of Christmas

The final CD in Stacy Piontek's Mediation Series, this work will evoke a sense of peace and relaxation during the rush of the busy holiday season. Audio CD. US$9.98.
"What is Creation theory?" "Can I believe in a world-wide flood?" What about the Dinosaurs?" "Can a Christian be a good scientist?" *Understanding Creation* will provide answers to these questions and more for those who are interested in reconciling the interface between biblical faith and science. Paperback, 224 pages. US$19.99.
