

# CREATION, CATASTROPHE, AND CALVARY

John Templeton Baldwin, editor

People often ask, "In this scientific age, what difference does it make whether I believe the world was created in six literal days and that the world was destroyed by a global flood?"

Offering the latest in-depth biblical and geological analyses of issues related to the biblical creation and flood narratives, *Creation, Catastrophe, and Calvary* explains from a spiritual and theological standpoint the importance these beliefs have for our daily lives and faith.

## **Seeker After Light: A. F. Ballenger, Adventism, and American Christianity**

by

Calvin W. Edwards and Gary Land

In 1905, Albion Fox Ballenger, a popular Seventh-day Adventist preacher, was released from employment for advocating views in conflict with Adventist teaching about Christ's ministry in the heavenly

sanctuary. Three quarters of a century later, another popular Adventist preacher again challenged the church's sanctuary doctrine, with similar results for the challenger. In some important ways, the Ballenger case may be seen as a foreshadowing historical footnote to a doctrinal controversy that shook Adventism in the early 1980s.

Thus, in this meticulously researched volume, Calvin W. Edwards and Gary Land collaborate to provide the first in-depth scholarly examination of a revealing, if nearly forgotten, episode in Adventist history. Edwards and Land place Ballenger and the events surrounding his dismissal in the context of the times and in a manner that implies the relevance of those events to the church's later discussions of some of the same issues.

Calvin W. Edwards is vice president of Ronald Blue & Co. in Atlanta, Georgia. Gary Land is professor and chair of the Department of History and Political Science at Andrews University.

Guy offers his philosophy of how North American Seventh-day Adventists ought to go about the business of "doing theology." The work is addressed to theological students, pastors and serious general readers who "are interested in...what theological thinking is, why it is important, who needs to be doing it, and how it should be done."

**Chapter titles:**

*What Theological Thinking Actually Is*  
*Why Everyone Should Think Theologically*  
*How Theological Thinking Should Begin*  
*Why Theological Thinking is Open-Ended*  
*How to Think with Intellectual Integrity*

*What Else Is Involved*  
*How Culture Makes a Difference*  
*What Logical Presuppositions Need to Be Identified*
