Berrien Springs Camera Club Meeting
Wednesday, Sept. 7
7 p.m., Berrien Springs Community Library

The Berrien Springs Camera Club will open its new season on Wednesday, Sept. 7, at 7 p.m. in the Berrien Springs Community Library at Cass and Union. The club's season runs from September through June each year, with programs alternating between an informative presentation about some aspect of photography, and a competition open to members. It meets on the first Wednesday evening of each month.

This year the club has chosen to focus on helping new or less-experienced members improve their photographic skills and enjoy entering competitions without feeling overwhelmed and discouraged. In the club competitions there will be an A section and a B section, allowing the less experienced to compete with a slightly different judging system. The first competition will be the October meeting.

The September meeting will feature a program by club treasurer Rob Shellhamer, "Exposure Basics and Camera Control," which will focus on what makes a correct exposure for various conditions and how to set the camera to make that exposure.

Annual membership fees are $5 for students, $15 for other individuals, or $20 per family. Refreshments are served at each meeting.

Canon Pixima IP 6000D
Used for about 6 years asking $25

Color and black & white printer
Currently it only has a black ink cartridge

Dimensions:
17" wide
17" deep
7" tall

Power cord 5' 8" long
USB cable 6' long

Here is a link to Canon’s review:
http://usa.canon.com/cusa/support/consumer/printers_multifunction/pixma_ip_series/pixma_ip6000d

Pros- Direct printing from memory cards and cameras. 2.5-inch LCD for previewing and editing photos. Reasonably fast performance and very good quality for photos.
Bottom Line- The Canon Pixma IP6000 is a throwback to an earlier generation of photo printers that did a good job with photos but not much else. Given its price, it’s unacceptably slow for business applications, making it a reasonable choice only if you want a second printer specifically for photos.
