**Active Online Teaching**
June 18 - July 29, 2012
Are you creating online courses? Do you want to know how to teach online? Do you want to include active learning, meaningful interactions, stimulating learning experiences in your online courses? Do you want to integrate faith and learning online? Then this course is for you.

**Integrating Technology and Service Learning**
June 18 - July 29, 2012
This course will help educators realize the importance of developing service projects for their students, discover what is happening in the world of "service learning," learn how to integrate content with service, and complete a project to help impact their own community through service learning.

**Integrating Technology with Pathways: Themes 1-4**
June 18 - July 29, 2012
The two *Pathways* courses review the reading theory and best practices that form the foundation of the *Pathways* curriculum, while sharing ways to integrate technology tools into the literacy program. Each course is also full of resources and technology integration ideas for teaching the themes at each grade level.

**Comment from a past participant:**
- I just want to say that this class has sure opened my eyes to *Pathways* as well as using...
technology in the classroom. What a benefit!
