Divine Instruction

FEBRUARY 2013

This amazing story from our FM station manager in the city of Eldoret, Kenya, Africa, confirms the powerful intervention of God's angels in the lives of those who heed His voice.

While traveling to other regions of the world, the manager recently gathered these first-person accounts:

“A Seventh-day Adventist pastor was asked to come into a home in a city where Christians were being persecuted. When he arrived at the home, he discovered, to his amazement, that he had been invited to the home of the Muslim imam. He was immediately fearful for his life but was impressed to knock on the door anyway.

“He was invited in, only to discover that, not only was the imam in the home but 30 other Muslims were there as well! Now he was really nervous. Then this amazing question came from the lips of the imam, ‘Can you baptize us in a secret place?’ After collecting his thoughts, the pastor blurted out, ‘Wait! How do I know if you are ready?’ To
which the imam very seriously, and with sacred awe replied, ‘For several months, an angel has come each evening and instructed me in the teachings of the Bible.’ The imam, in turn, had taught the 30 men who were now in the room. When the group was quizzed by the pastor, it was discovered that indeed, they were very well grounded in all the teachings of the Seventh-day Adventist Church! The pastor baptized the entire group."

There are people groups all over the world – some in very isolated places – that are receiving divine instructions in very miraculous ways.

A family recently made their way as missionaries into the dense mountainous jungle of the Philippines, only to discover that their arrival had been announced by dreams given to the chiefs of villages, and when pastor Tim started to hold evangelistic meetings, more people had dreams, telling the elders of several area villages to come to those meetings!

Many Muslims are being given dreams of a “Man in white,” who tells them to go to the Seventh-day Adventists for truth about the last days. This man in white is identified as Jesus Himself when they learn the truths of scripture. In a Muslim country, a pastor hired a large billboard and put an ad on it that read, “If you have had a dream of a ‘Man in white’ please call this number.” He received more than 100 phone calls from Muslims searching for truth!

**From the South Pacific**

Through a series of providential events, a Muslim sheik in Australia had invited a Seventh-day Adventist layman – a local church elder – to come and share with his congregation what Seventh-day Adventists believe.

Before the layman had conducted his first meeting in this mosque, the sheik was given three dreams. Each time he was told by God, “Do not try to convert this Seventh-day Adventist. Just listen to him. He has a message for Muslims about the last days.” After the first meeting, the sheik continued to invite this layman back for a total of five presentations; when he was done the sheik got on the Internet and sent a message to his Internet flock of over 200,000 Muslim believers that they need to listen to Seventh-day Adventists because they have a message for us!

As a people who have been blessed with the truth, we must share that truth as far and wide and as fast as we are able. Adventist World Radio actually has tremendous capabilities to share the message throughout the world using shortwave, the Internet, and downloaded or on-demand programs. Your continued and generous support is needed to make this a reality!

How can we deny this blessing to so many who are hungering for hope and salvation?

I am asking you to please join us in both praying for and giving to help finish this work. We know that tens of thousands of Muslims are listening to our programs in the
secrecy of their homes. Only in eternity will we know the full impact that your prayers and financial gifts have made.

Could 2013, perhaps, be the final year that we must remain in this world of sin and sorrow? Powerful angels stand ready to join us in these final days of earth's history.

Let us work together!

In His service,

Dowell Chow
AWR President
