I don’t think it is necessary for me to remind you that the words of Jesus spoken to his disciples regarding the end, found in the Bible (Matthew 24), are of extreme relevance today, because the evidences are unfolding daily right before our eyes!

The following testimony from Victor, a native of Cameroon now living in America highlights this last day strategy used by the enemy.

“… I was an ancestral worshiper. I prayed to the spirit of my deceased ancestors and performed lots of traditional rituals or animal sacrifices without success of finding peace with my soul. In 2005, my friend invited me to his church and at the end of the service he gave me his bible as a gift. Little did I know how much that book would change my life? After I was converted to Christianity, God spoke to me saying, “Take the good news back to your people, the Bantu People in Central Africa.”

After watching a television program where leaders from AWR showed the audience the solar-powered device called “The Envoy”, containing the Bible and other material, Victor contacted AWR to inquire. We discussed a potential joint project with Bantu Ministries
and AWR to produce and distribute these devices for the Yemba people of Cameroon.”

Victor’s Mother was the first to receive the gospel on her Envoy!

Why a Project like this one?

There is no local FM station near enough to reach these people. Even with our shortwave broadcast, there are two major challenges: a) we don’t have yet a trained Yemba-speaking producer, and b) many of the people do not have the resources to purchase even a simple radio. The Envoy fills that gap, wonderfully!

Prerecorded messages that are not erasable by the user, solar-powered, no need for electricity or batteries, rugged construction and easy to operate; all this and more make this device a powerful tool in reaching special groups of people.

I shared with you earlier about the tremendous success we are experiencing with this unique unit in the Democratic Republic of the Congo, among people groups in Mexico and other parts of the world. We are now working to produce a second shipment for Cameroon; local pastors and bible workers are clamoring for more units to reach more faraway villages.

How the program works and how you can help:

The Cameroon Union recruits people who can voice bible studies into the Yemba language. The audio material is then put together by the technicians at the AWR studios in Yaoundé and Maroua. AWR has the capability to make this happen, what we need is your financial help to purchase the units ($40 each), ship the devices to Africa, and place the content on the units.

The Next Step:

Trained bible workers take the units to remote villages and place them in the hands of responsible villagers. Bibles studies follow and people are led to Jesus!

This is a highly effective way to reach those people groups where traditional radio is not practical. New congregations have been established using this exciting tool but there are many more people we must reach with the story of salvation!

Time is so very short and your continued financial partnership makes it possible for AWR to reach people around the world with the final message of Christ and His soon coming.
Now is the time to place our resources in God's final work of love so people can know that God still cares for them!

Disasters are on every hand, prophecy is being fulfilled before our eyes—the second coming is near!

People are responding—AWR must continue to share the good news:

“We bow low to you for radio programs. We are suffered from the terrible cataclysm – flood. And because of it your comforting words and wishes were timely and appropriate. 3400 homes went to the bottom. Hundreds of people were left homeless. We were witnesses of the flows that demolished sheds, houses and animals floated down the River. And even the tiger couldn't get out of this deep, he drowned and we saw his body on the riverbank.” (Listener from Russia)

God help us to see the need and respond while there is still a little time. Your prayers and financial support are making a tremendous difference around the world, one baptism at a time!

Maranatha,

Dowell Chow
AWR President
