Feb & March 2014 Online Workshops Sponsored by SDE

The School of Distance Education is sponsoring Sloan C Online Workshops for Andrews full time, adjunct, part time, and consortium faculty.

We've paid for another 25 seats in these workshops in 2014. Only 17 seats available for now. Here is a comment from an adjunct faculty member who participated in 2013:

Yes, I would highly recommend the Sloan C workshops! I was able to participate in two of them and I learned a lot. The workshops cover a lot of content in one week so those interested in participating really need to plan for intense reading. There are layers of links embedded in the assignments thus giving the learner options of what, how much or how little they desire to read.

Please note:
Asynchronous Workshop can be done at anytime during the indicated dates.
Synchronous Workshop are only done during the indicated date and hour.
