**Prayer Request**

From Betsy Schooler concerning AFM missionaries in a closed country. Please pray for this missionary family.

Last week we found out that the government is trying to require our English School, which allows us to be here legally, to pay a tax of $40,000 and fines for not doing something they never told we had to do. This could potentially shut our project down. We have no recourse except that God performs a miracle to fight their requirements since their charges are arbitrary.

We believe that Satan is trying to find another way to stop our service in SE Asia. Since we have done everything above board we place our trust in God and ask that you pray with us that "all things to work together for good".

In His service,
