Greetings!

Are you prepared? A storm is coming relentless in its fury and there is no time to lose. Earthquakes, tsunamis, tornadoes, and floods are striking this planet like never before, and in quick succession. "Even now he [Satan] is at work. In accidents and calamities by sea and by land, in great conflagrations, in fierce tornadoes and terrific hail-storms, in tempests, floods, cyclones, tidal waves, and earthquakes, in every place and in a thousand forms, Satan is exercising his power. He sweeps away the ripening harvest, and famine and distress follow. He imparts to the air, a deadly taint, and thousands perish by the pestilence. These visitations are to become more and more frequent and disastrous.
Destruction will be upon both man and beast. 'The earth mourneth and fadeth away,' "the haughty people ... do languish. The earth also is defiled under the inhabitants thereof; because they have transgressed the laws, changed the ordinance, broken the everlasting covenant.' [Isaiah 24:4, 5] GC88, p. 589.

At Modern Manna, we are moving as fast as possible to prepare the world and the church for the second coming of Christ. John the Baptist, the forerunner of Christ, was a health reformer and had the special calling to prepare his own people for the coming of the Lord. (see Luke 1:15-17). "For years the Lord has been calling the attention of His people to health reform. This is one of the great branches of the work of preparation for the coming of the Son of man. John the Baptist went forth in the spirit and power of Elijah, to prepare the way of the Lord, and to turn the people to the wisdom of the just. **He was a representative of those living in these last days, to whom God has entrusted sacred truths to present before the people, to prepare the way for the second appearing of Christ.** John was a reformer. The angel Gabriel, direct from heaven, gave a discourse upon health reform to the father and mother of John. He said that he should not drink wine or strong drink, and that he should be filled with the Holy Ghost from his birth. CD 70

Did you especially notice in the paragraph above that John preached the Elijah message, and was a representative of "those living in the last days"? Yes, we are to be antitypical Elijahs and Johns and sound the same message. The signs are all around us, and the church is unprepared for the storm that is coming because the sin of gluttony has numbed the minds of many.

What is Modern Manna doing about it? Here are some of our plans for the next few months:

1. Speaking Engagements - June 4 and 5 in Milpitas, CA. Charmaine and I will be speaking and preparing live food recipes at the Milpitas SDA Church. Charmaine is getting certified, as I write, as a raw food chef and instructor at the most prestigious raw culinary school in the world called Living Light in Fort Bragg, CA. We also are scheduled in New York, Lodi, Campbell, & Sunnyvale, CA and requests have come in for Washington, Visalia, CA, Loma Linda, and other
2. Health and Healing Crusade - Our 13th Annual Health and Healing Crusade is June 17-19, in Lodi, CA. For more information see below or visit our website www.modernmanna.org.

3. R I S E N - We are launching our first 21-day medical missionary school July 17 - Aug 7 at BellaVita. For more information see the left side of this newsletter or write me at danny@modernmanna.org. Only 12 candidates will be selected.

4. BellaVita--The Movie - George Hope and I have spent countless hours editing the new movie, BellaVita--A Beautiful Life. This action-packed film, which took 25 hours of footage to make and one year to edit, promises to be a powerful tool that will reach thousands with the health message, and the power of cleaning the 7 elimination organs of the body. There is nothing like it that has ever been produced. The story follows guests through a BellaVita 10-day session, and their incredible healing journey. You will see the healing miracles that happened. One scene shows an 86-year-old Holocaust survivor who passed a 3-foot parasite. We plan to premier the exciting new movie at this year's Health and Healing crusade, June 17 -19, and enter it in film festivals as a new evangelistic effort.

5. BellaVegan Raw Food Classes - Charmaine and I plan to start live food classes at BellaVita on a regular bases. She is an outstanding chef, and will teach you how to prepare food the healthiest and simplest way. Classes will include knifecutting, dehydrating, juicing, live food preparation and presentation. Charmaine, an 8-year cancer survivor, understands the benefits of live food when it comes to healing. I will lecture on the science of raw and the importance of cleansing the body for optimum health.

6. A New Informercial - It looks like I will be making a new informercial for television on cleansing with a new company from Boston. In fact, God gave me the content and the name of the new product which I will disclose once a new agreement has been reached.

            We must act quickly, for time is short!
Please pray for my son Daniel Jr. who is working so hard to organize the crusade. We need your prayers as we take the health message to the world!

Thank you for support,
Danny Vierra

HEALTH TIP OF THE WEEK

HEALTH TIP OF THE WEEK: I was lecturing at BellaVita & a lady was rubbing her eye. She had eye pain for years. I told her to put 2 drops of castor oil in her eye & the pain stopped in seconds. I have put castor oil pack on the lungs of a cancer patient & the pain as gone in seconds. 2 drops in the eye twice a day an dissolve cataracts. Orally it is a laxative. You can add a tablespoon of castor oil to an enema and soapy water (use a natural soap) for unblocking the colon in severe cases. A very effective natural remedy.

Dave Westbrook, is the director of the documentary film "America's Cities: The Coming Crisis". The movie takes viewers on a journey from the streets of America's cities to personal interviews with leading experts who reveal the disturbing truth about what lies ahead for the nation's metropolitan areas. In making the film Dave spoke with members of congress, authorities from leading universities, military, and disaster planning agencies including a former high ranking FEMA official.
