Greetings!

Modern Manna is pleased to announce the official launching of R I S E N (Remedial and Integrated School of Naturopathy and Evangelism) on July 2, 2012. The Spirit of Prophecy tells us that "no line is to be drawn between the genuine medical missionary work and the gospel ministry. These two must blend. They are not to stand apart as separate lines of work. They are to be
joined in an inseparable union, even as the hand is joined to the body. The medical missionary work is to be to the work of the church as the right arm to the body.” 8T, p. 77.

Our goal at the new medical missionary school is to certify Bible workers and laymen as Natural Hygiene Coaches, and send them out to teach God's health message of complete restoration. We want to teach students how to open and operate their own Home Lifestyle Centers, and use these beacons of light to reach the world. People do not realize the amazing parallel between the gospel message of salvation and the health message. We will teach our students that cleansing and regeneration take place on a physical and spiritual level. There are sins and tox-sins that need to be purged. Regeneration can then take place.

"Natural Hygiene is that branch of biology which investigates the conditions upon which health and life depend, and the means by which they are sustained in their virtue and purity” (Herbert Shelton). This science of health embodies correct living practices and obedience to the natural laws of health." "Pure air, sunlight, abstinence, rest, exercise, proper diet, the use of water, trust in divine power--these are the true remedies. Every person should have a knowledge of nature's remedial agencies and how to apply them. It is essential both to understand the principles involved in the treatment of the sick and to have a practical training that will enable one rightly to use this knowledge." Ministry of Healing, p. 127, Ellen G. White.

In fact, this prolific author wrote much about the necessity of removing impurities from the body, and supported the Hygienic reform.

"The hygienic system teaches that disease is a remedial effort, a struggle against the vital powers to purify the system and recover the normal state. This effort should be aided, directed, and regulated if need be, but never suppressed. What is this mysterious thing called disease? It is simply an effort to remove obstructing material which we call toxic materials from the organic domain and to repair damages. Diseases is a process of purification and repair. It is remedial action. It is a power struggle to overcome obstructions and to keep the channels of circulation free." Natural Hygiene, The Puristine Way of Life.

This program is offered in a 2-part training series, which includes a distance-learning course entitled

One of my favorite people in the whole wide world is Charlotte Gerson, seen here at age 90! She has been a kind, generous, mentor to me for many years, and I am indebted to her for the wealth of knowledge she has taught me. One of my favorites is "Disease is caused from toxicity and deficiency." What a beautiful picture of a person who has sacrificed for the needs of others throughout her lifetime. God bless you Charlotte!
