Greetings!

Many of you may remember Dr. Russell Blaylock, the neurosurgeon who wrote the book *Excitotoxins - The Taste That Kills*. Years ago, at one of Modern Manna's Health Crusades, Dr. Blaylock spoke on the same subject and amazed the large audience. Never had they heard of information like this. Now I want you to listen to another mind-blowing interview with this well-known health educator on the legitimacy of chemtrails and their affect on the human brain (link below).

Before we get to the interview, I want to share a short story about the time I nearly died in 2004 from chemtrails, right before one of our Health Crusades.
I woke up at 1:00 AM and could hardly breathe from an acute asthma attack. I struggled for hours trying to catch a breath, and seriously thought I might die. I had never had an asthmatic attack in my life, and was very alarmed. I prayed to God for help and to forgive me for every sin, just in case it was my time. In desperation, I woke my wife and told her to rush me to the hospital.

The emergency room nurse rushed me on a wheelchair into the hospital and found my blood oxygen dangerously low. She said you are lucky to be alive, because you could have gone into respiratory arrest. The nurse, who was the daughter of one of the SDA pastors in Lodi, knew me and my work in health. Needless to say, she was surprised to find me in this condition. "What in the world happened to you," she asked? "I think the chemtrails over highway 99 got me. They are everywhere." "I believe it," she said. "The hospital is filled with first-time asthmatic patients. I have never seen anything like it."

Chemtrails are poisoning many unaware Americans just as radiation poisoned many unaware soldiers who responded to the tsunami that struck Japan in 2011. Fox News reported today: "When the USS Ronald Reagan responded to the tsunami that struck Japan in March 2011, Navy sailors including Quartermaster Maurice Enis gladly pitched in with rescue efforts. But months later, while still serving aboard the aircraft carrier, he began to notice strange lumps all over his body. Testing revealed he’d been poisoned with radiation, and his illness would get worse. And his fiance and fellow Reagan quartermaster, Jamie Plym, who also spent several months helping near the Fukushima nuclear power plant, also began to develop frightening symptoms, including chronic bronchitis and hemorrhaging. They and 49 other U.S. Navy members who served aboard the Reagan and sister ship the USS Essex now trace illnesses including thyroid and testicular cancers, leukemia and brain tumors to the time spent aboard the massive ship, whose desalination system pulled in seawater that was used for drinking, cooking and bathing. In a lawsuit filed against Tokyo Electric Power
Company (TEPCO), the plaintiffs claim the power company delayed telling the U.S. Navy the tsunami had caused a nuclear meltdown, sending huge amounts of contaminated water into the sea and, ultimately, into the ship's water system” (full article and video below).

Friends, if there was ever a time we need to get into the best condition of our lives, physically and spiritually, it is NOW! "Satan is exercising his power. He sweeps away the ripening harvest, and famine and distress follow. He imparts to the air a deadly taint, and thousands perish by the pestilence. These visitations are to become more and more frequent and disastrous. Destruction will be upon both man and beast. 'The earth mourneth and fadeth away,' "the haughty people ... do languish. The earth also is defiled under the inhabitants thereof; because they have transgressed the laws, changed the ordinance, broken the everlasting covenant' Isaiah 24:4, 5" (The Great Controversy 590).

May God protect us,
Danny Vierra
