SPEAKERS

Mark Kinjo, ND, is a naturopathic physician working in a multidisciplinary, family practice clinic in Washington State. After starting his medical education at Loma Linda University, he switched to Bastyr University in Seattle, Washington to obtain his naturopathic degree. Utilizing his training in natural medicine alongside traditional medical care providers gives him the opportunity to help patients achieve the best care possible for whatever health issues they may be facing. Dr. Kinjo firmly believes in the efficacy of lifestyle changes to promote health and wellness.

N. David Emerson, MD, is an internist who served for three years as medical director at Eden Valley Lifestyle Center in Loveland, CO. He did his residency at Kettering Medical Center in Kettering, OH. Following that, he served eight years at a Seventh-day Adventist medical clinic in Guam, where he helped develop an outpatient NEWSTART program for the local residents. Dr. Emerson then worked in private practice for eight years in Ardmore, OK, where he again implemented an outpatient NEWSTART program. He has also given talks on 3ABN for a series entitled “Wonderful You.”
