The Lord's Day (Back In Print!)
by Colin & Russell Standish

In this book the authors thoroughly researched the claims made in favor of the apostolic roots of the Lord's Day, Sunday. "The Lord's Day" is a term used only once in scripture. John the beloved declared in Revelation 1:10, "I was in the Spirit on the Lord's day." In his famous encyclical Dies Domini, Pope John Paul II commenced with these words, "The Lord's Day--as Sunday was called from apostolic times...." To many Protestants, this was an unexpected and much approved declaration from the pontiff of the Roman Catholic Church. Protestants were not accustomed to hear such a declaration issuing forth from Roman Catholic sources, let alone from the supreme pontiff himself.
The Entertainment Syndrome
by Colin & Russell Standish

This book explores how this large increase in entertainment impacts the physical, emotional, social, intellectual and spiritual life of the human race. In graphic detail, the authors portray what can be the outcome of even the simplest forms of what many might consider to the "innocent" entertainment.

**Historic Adventism**

by Colin Standish

“Historic Adventism” is a term commonly used to identify the beliefs of those who have opposed the intrusion of “new theology” into the Seventh-day Adventist church beginning in the 1970s and 1980s. In this book, Dr. Colin Standish sets out to outline the chief beliefs of what has become known as “Historic Adventism.” The manuscript was originally intended as an article to be published in Ministry Magazine, as was a contrasting article by a professor at Andrews University. However, as predicted by several faithful pastors, this article proved to be too well written and unanswerable by the opposing argument, and was therefore rejected by the editors of Ministry Magazine. That article is now the book, Historic Adventism.
