Dear Friends,

The day has arrived--it's Clergy Sexual Abuse Awareness & Prevention Day, an event being celebrated throughout the month of August. Clergy sexual abuse is a prevalent problem in every denomination around the globe and one of The Hope of Survivors' primary goals, beyond providing support to victims of sexual abuse by anyone in the role of spiritual authority, is raising awareness of the issue and educating clergy, church members and the public at large.

To kick off this inaugural Clergy Sexual Abuse Awareness & Prevention Day, several events are planned during August, including: exhibiting at the ASI Convention in Sacramento, CA; participating in Prime 11 Cinemas Monday Night Sponsorship Program in Redding, CA; testimony/benefit concerts in Vancouver, WA, and Simpsonville, SC; conducting a Hope & Healing victim's conference in Indianapolis, IN; a TV interview in NM; screening of the documentary Call It Anything But Love! in the UK; and much more! Be sure to check the calendar for more details. This is a collaborative effort between many organizations and individuals and we invite you to Get Involved!

God bless you,
Samantha Nelson
Vice President

P.S. Don't forget to register to attend the Hope & Healing Conference in Indianapolis on August 28!
