Dear Hope of Survivors Family,

Today, August 1, is Clergy Sexual Abuse Awareness & Prevention Day®!

We've had a great team of volunteers (thank you Erik, Tracye & MJ!) working feverishly on slogans and images and we've now launched a major social media campaign to raise awareness about this issue.

Throughout the month, we will post a new image each day on social networking sites such as Facebook, Twitter, Google+, LinkedIn, Pinterest, and many others. We encourage you to please share and re-post these images and messages on your own social networking sites. You can find the schedule and images on these pages:

http://clergysexualabuseawarenessday.com/August_Images.asp

In addition to this social media campaign, we have other events taking place during August as well:

August 7-10, Orlando, FL--ASI Convention (See Calendar for details.)

August 8, Balboa Island, CA--The Advocate Radio Interview (See Calendar for details.)

And, finally, you might want to read and share this thought-provoking article--11 Reasons Why Pastors Should Never Date Their Parishioners--in your effort to educate others about clergy sexual abuse.

Thank you for participating in this campaign!

God bless you,
Samantha Nelson
