Over a year and half ago Maranatha Volunteers completed and started several building projects for the Beth-El Shalom Synagogues of St. Petersburg and New Port Richey FL. We have just completed the last of the projects they started. They began the process of framing the windows and preparing them for the stone structure, we followed it up with stone look and pictures and have just completed it in time for the High Holy Days which begin tonight. Thank you Maranatha and all who helped with this project!

Jeff
