Last week we held our Passover seders in the St. Petersburg and New Port Richey Beth-El Shalom congregations. We had over 100 people in each location, about 230 people total. I also did a Passover for a Catholic church and a traditional Adventist church.

Next week we have two Holocaust survivors from the St. Petersburg congregation sharing their testimonies.

Before I share the pictures from the Passover I have some very important prayer requests I would appreciate you joining us with. Several people in the congregations have been experiencing some severe health issues this past week. 2 people, both in their 50’s, had heart attacks, one is home, but the other has not regained consciousness for over a week, the doctors want to take him off life support. 1 man in his 60’s just had his kidney removed and came down with pneumonia, the doctors want to put him in hospice tomorrow. Another lady in her 40’s has 4th stage cancer and is experiencing pain. Another man in his 50’s is having to change professions because he is experiencing severe sciatic pain in both his legs. A young lady in her 20’s, who is planning to come to Israel with us in two weeks, fell at work two weeks ago and her wrists are still swollen and causing pain at a scale of 8 out 10. I feel a need to have as many people praying as possible. Thank you.

Jeff
