Just wanted to share the good news I received from ASI that the request that the Madison College Alumni Association made together with the Layman Foundation for funding to digitize and place on the internet the historical documents of Madison College. This will be a big project but I am thankful the Madison history will be preserved and made available to the public.

We are happy to report that your ministries' proposed project to physically preserve and digitize (make available online) historic materials relating to Madison College and the lay movement that grew from it has been approved for this year's ASI Convention offering. You requested $16,000; ASI will assist with $16,000.

As you know, many of our offering donations come in the form of pledges that are paid over 12 months. As a result, your grant will come in two stages. The first half will come at the end of 2012. The second half will be sent in late spring, 2013, after we receive your first report.

Funding is dependent on your:

1. Accountability—you will send us two reports on your project and the impact ASI funding has had on it—one after the first half of funding is used; the second after the final grant monies are used.

2. Accountability—if for any reason your project cannot begin/be completed, you must return the ASI grant, OR send a written request to re-direct those funds.

3. Accountability—your corporate documents must comply with ASI’s criteria by clearly showing:
   1) A harmony of purpose with the SDA Church,
   2) That your governing board/officers must be SDA Church members in regular standing, and
   3) A dissolution clause that re-directs your organization’s assets to another SDA-controlled 501(c)(3).

NOTE: If you wish your project to be listed in the 2012 ASI Convention Program, please e-mail a project picture and description to ASI’s Communication Director, Conna Bond by June 1, 2012: connabond@gmail.com.

Please let us know if you have any questions.
