FYI! I'm not sure if we have a way of saving this type of media.

Emanuela Chimoiu has been living in Spain for many years. At first she wanted to come to Romania as a missionary supported by Maranatha Romania, but didn’t make it. She decided to support the Maranatha family of missionaries by faith, although she did not know how she would manage to do it on a monthly basis. She sent a small amount of money for several months, and each month increased the donation. Please find here the amazing experience of this Godly, young woman and the way she felt His power manifested financially.
