The “What if” tool allows students to find out what kind of grades they would have to earn in future assignments/quizzes in order to reach a pre-determined letter grade in a course.

Such a tool is already installed in LearningHub, it is called “LAE User report’ and it is located in the gradebook area. The “Target” option can be seen only by the students, below are screenshots of where it is, how it compares to the regular “User Report”.

**This is the regular User report:**

**This is the LAE user report:**
A very important point that must be taken into account is to make sure that your letter grade scale in the gradebook is set up correctly. Please contact dlit@andrews.edu if you need assistance setting up the letter grades in the gradebook.

Please remember that we are here to serve you, do not hesitate to contact us if you need technical assistance or have suggestions for the betterment of LearningHub.
