Public Campus Ministries Training in the North American Div. of SDA:

There has been much talk in recent years about the urgency of meeting the needs of thousands of Adventist Young Adults and their classmates who attend public universities. Also, in recent years our office has been responsible for the development of many resources to help provide training for pastors, churches, and youth/young adult directors who have a passion in this area of ministry.

One of the key training opportunities that we are most proud of is the Adventist Christian Fellowship Institute. Held on the campus of La Sierra University from July 22-August 3, 2012, participates will gain a broad perspective about how to successfully establish and maintain a public campus ministry through your local church. Now is the time to get on board by sponsoring someone from your church to take advantage of this convenient opportunity.

Under the coordinating of Pastor Ron Pickell and other practitioners who are experts in this field, we invite you to come and get the relevant tools necessary to grow your church through this golden evangelistic opportunity. Due to limited space we invite you to respond ASAP by registering today. Please carefully review the attached information.

Tens of thousands of students on public campuses are waiting to hear from your church. They need you NOW!
