Learn how to

Defeat Diabetes

There's hope for change!

What if it was possible not just to “manage” your type 2 diabetes but to get rid of it? The good news is that simple lifestyle changes can address the cause of the disease and reverse the vast majority of type 2 diabetes cases.
Current medical research supports what NEWSTART has practiced for over 35 years. Our team has helped thousands of diabetics and prediabetics experience dramatic health improvements through lifestyle strategies such as healthy eating and exercise. You can achieve the same results!

Reversing Diabetes

Diabetes kills 160,000 Americans every year. Dr. Neil Nedley explains the simple cause of this deadly disease and the program that can help you avoid or reverse it.
