University Vespers Summer Edition

Aware of the fact that many students who stay at Andrews for the summer are in need of a place to bring in the Sabbath, Campus Ministries sought out a group of student volunteers to lead in University Vespers: Summer Edition. The summer edition of University Vespers ministers to students and families who want to draw closer to God. As student volunteers prayed and brainstormed, an exciting and relevant theme idea surfaced. The
theme is "Growth": Growth with God, Growth with Self, and Growth with Others. Join us in praying that vespers this summer will be a vehicle for growing closer to God, closer into the image of Christ, and closer with one another. University Vespers, the summer edition, will include praise and worship, time in the Word, testimony, and various God-centered activities and events. Our desire is that people will not only have a place to worship as the Sabbath begins, but there will be real growth with God on a personal and intimate level. We want people to leave vespers knowing that they experienced the grace, mercy, and love of God. If you would like to get involved with this program, you may contact Campus Ministries at cm@andrews.edu to become a part of the volunteer list. If you would like to attend this program, come on out to the PMC Youth Chapel on Friday evening. The program begins at 8 PM.
