Greetings!

Have you ever felt like life was out of control? That's how Debbie felt when told she had cancer. But God was by her side - I think you'll appreciate how He showed up in her life.

Last spring, we introduced you to some very special people through The Story Project. We're continuing this new tradition and over the next several weeks we will share more incredible stories of what God is doing in the lives of Positive Life Radio listeners.

This week is Debbie's Story.

In December of 2010, Debbie was diagnosed with cancer. During this time of decisions and loneliness, Debbie say's, "When everything else was out of my control ... the radio station was always playing songs that reminded me that God was still there...He cares and He is with me all the way through."

I believe you will be blessed and encouraged as you hear her story. Just click on Debbie's Story (the image below) and the story will begin playing.

Join us each week as we are uplifted, inspired, and reminded how our powerful God can meet us where we are-- and use something as simple as a song to change our lives.
