Greetings!

The Story Project continues this week with another powerful story from Positive Life Radio listener Leighann.

Leighann shares about a particularly difficult time when her life was turned upside down. When the doctor told her she had multiple sclerosis, she felt overwhelmed, depressed, and afraid. With nothing but a radio to keep her company, Leighann soon found comfort in the Christian songs she heard on Positive Life Radio.

I invite you to hear Leighann share how God reached into her life and drew her closer to Him. It's one of those stories where you just can't help but be amazed at how great God truly is.
