Greetings!

The Story Project begins this week as we hear another powerful story about how Christian music is impacting the lives of our listeners.

Greg, a listener who works as an operations manager for Asotin County transportation, says that several of their bus drivers have Positive Life Radio playing throughout the day.

"I can tell you that the driver that drives with Positive Life playing all of the time, he has less problems on the bus than the other buses do," says Greg. "So there's really a sense of peace."

I invite you to listen and watch Greg's story by clicking the image below, and also follow along over the next few weeks as we share more and more stories as a part of The Story Project.

Blessings,

Sali Miller
Office and Promotions Manager
Positive Life Radio
