Prayers Among Buddhists
18 April 2011

JAPAN CRISIS

One week after the earthquake and tsunami in Japan the media are still focusing on the aftermath. The devastation reaches more than 400 miles of their eastern coast. The scope of the potential hazard from damage done to nuclear reactors remains unknown.

The Japanese people need our prayers and support. The country has a sizable Buddhist population. Only 1% of Japanese citizens consider themselves Christians.
Let us pray together that this unprecedented disaster will prompt many to turn to the Lord Jesus.

ADRA is currently monitoring and evaluating the situation. Updates will be released as response efforts expand.

To send your contribution to ADRA’s Emergency Response Fund, please contact ADRA at 1.800.424.ADRA (2372) or give online at www.adra.org

Next week you will have a report of the recent Disciple-Multiplying Initiative (DMI). It was special time together as attendees from five countries came together to study more deeply the example of Jesus. A time in which His promises and plans for His disciples were explored, discussed, absorbed and embraced.
