"Words for the Wise . . ."

"The wise see danger ahead and avoid it, but fools keep going and get into trouble."  
Proverbs 2:3. NCV

From this day forward, my wife and I are monitoring closely the fuel gauges on our vehicles -- our Ministry vehicles, too.

When the gauge approximates ¾ tank full -- ¼ tank empty, we stop to refuel and top off the tank! Our plan: If the fuel gauge reads ¾ full or less, we do not want the sun to go down without a refill . . .

"Be very careful, then, how you live -- not as unwise but as wise, making the most of every opportunity, because the days are evil."  
Ephesians 5: 15,16. NIV
